USSR ACADEMY OF SCIENCES

AUTHOR INDEX

VOLUME XIX: JULY–DECEMBER

[Numbers in brackets refer to Russian original.]

ABARENKOV, I. V.
On the Choice of the Moving Coordinate System in the Theory of the Rotational-Vibrational Spectra of Poly-atomic Molecules—A. A. Kiselev and I. V. Abarenkov. 19, 464 (1965) [19, 834 (1965)]

ABRAMOV, A. P.
Nonlinear Quenching of Luminescence of Manganous Chloride Due to Increased Intensity of Excitation—N. A. Tolstoi and A. P. Abramov. 19, 461 (1965) [19, 830 (1965)]

ADAMOV, M. N.
Calculation of the Optical Polarizability of the Hydrogen Atom with the Use of a Power Series—M. N. Adamov, V. K. Kagan, and B. I. Orlov. 19, 171 (1965) [19, 300 (1965)]
Study of the Optical Properties of Molecular Hydrogen Using the Variation Method of Perturbation Theory—M. N. Adamov and R. A. Evarestov. 19, 362 (1965) [19, 648 (1965)]

ADRIANOVA, I. I.
Electro-Optic Effect in ZnSe Crystals—I. I. Adrianova, G. V. Dreiden, K. K. Dubenskii, Yu. V. Popov, and V. A. Sokolov. 19, 75 (1965) [19, 142 (1965)]
Production of a Powerful Pulse of Radiation from a Ruby Laser Using an Ultrasonic Traveling-Wave Diffraction Modulator—I. I. Adrianova, Yu. V. Popov, and V. E. Terentev. 19, 176 (1965) [19, 307 (1965)]

AGALARZADE, P. S.
Optical Properties of Polycrystalline InSb Films—S. A. Semiletov, P. S. Agalarzade, and E. M. Kortukova. 19, 142 (1965) [19, 252 (1965)]

AKHUNDOV, G. A.
The Electroluminescence of Single Crystals of GaSe—G. A. Akhundov and I. G. Aksyanov. 19, 172 (1965) [19, 302 (1965)]

AKSYANOV, I. G.
The Electroluminescence of Single Crystals of GaSe—G. A. Akhundov and I. G. Aksyanov. 19, 172 (1965) [19, 302 (1965)]

ALEKSANDROV, E. B.
Beats in Luminescence due to Phase Modulation of the Excited State—E. B. Aleksandrov. 19, 252 (1965) [19, 452 (1965)]
Modulation and Filtration of Resonance Radiation with the Use of the Faraday Effect—E. B. Aleksandrov. 19, 254 (1965) [19, 455 (1965)]
Stimulated Raman Scattering in Selective Resonators—E. B. Aleksandrov, A. M. Bonch-Bruevich, N. N. Kostin, and V. A. Khodovoi. 19, 548 (1965) [19, 982 (1965)]

ALEKSANYAN, V. T.
Information Retrieval System for Molecular Spectroscopy Using Slotted Cards—Z. B. Barinova and V. T. Aleksanyan. 19, 349 (1965) [19, 628 (1965)]

ALTMAN, E. L.
Determination of the Lifetime of the Excited $7^1P_{3/2}$ State of Cesium from Double Resonance Experiments—E. L. Altman and M. P. Chaika. 19, 538 (1965) [19, 968 (1965)]

ANDREEVA, T. L.
Broadening of Emission Lines of Thallium by Molecular Hydrogen—V. A. Dudkin, T. L. Andreeva, V. I. Malyshev, and V. N. Sorokin. 19, 99 (1965) [19, 177 (1965)] (5)
Investigation of the Dependence of Infrared Absorption Band Parameters on Viscosity—T. L. Andreyeva and V. I. Malyshev. 19, 120 (1965) [19, 213 (1965)] (3)

BABUSHKIN, F. A.
Relativistic Radiation Transitions—F. A. Babushkin. 19, 1 (1965) [19, 3, (1965)] (2)
Correlation of Directions in the Case of Cascade Transitions in Characteristic X-Ray Emission—F. A. Babushkin. 19, 545 (1965) [19, 978 (1965)] (2)

BAGDANSKIS, N. I.
The Inversion of Ammonia Molecules in Solution—N. I. Bagdanskis and M. O. Bulanin. 19, 128 (1965) [19, 229 (1965)] (3)

BAKHSHIEV, N. G.
Universal Intermolecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. VIII. Some Remarks on the Application of the Method of Universal Interaction Functions—N. G. Bakhshiev. 19, 196 (1965) [19, 345 (1965)] (2)
Universal Intermolecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. IX—N. G. Bakhshiev. 19, 299 (1965) [19, 535 (1965)] (2)
Universal Molecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. X. An Investigation of the Absorption and Fluorescence Spectra of Phthalimide Derivatives over a Wide Range of Temperatures (20-300°C)—N. G. Bakhshiev and I. V. Piterskaya. 19, 390 (1965) [19, 698 (1965)] (3)

BAKUMENKO, V. L.
Stimulated Emission of Praseodymium in Calcium Tungstate—V. L. Bakumenko, G. S. Kozina, T. A. Kostinskaya, E. P. Lupachev, and E. S. Rvacheva. 19, 68 (1965) [19 132 (1965)] (6)

BARANOV, B. V.
High-Frequency Electroluminescence of Polycrystalline Boron Phosphide—B. V. Baranov, Ya. A. Oksman, B. D. Prochukhan, and V. N. Smirnov. 19, 553 (1965) [19, 987 (1965)] (5)

BARANOVSKII, I. B.
Vibrational Frequencies of Coordinated Hydroxylamine—Yu. Ya. Kharitonov, M. A. Sarakhanov, I. B. Baranovskii, and Kh. U. Ikramov. 19, 257 (1965) [19, 460 (1965)] (5)

BARINOVA, Z. B.
Information Retrieval System for Molecular Spectroscopy Using Slotted Cards—Z. B. Barinova and V. T. Aleksanyan. 19, 349 (1965) [19, 628 (1965)] (3)

BATSANOV, S. S.
Spectroscopic Determination of the Indices of Refraction of Polycrystalline Specimens—S. S. Batsanov and Z. A. Grankina. 19, 449 (1965) [19, 814 (1965)] (3)

BATURICHEVA, Z. B.
Some Trapping Centers in NaI(Tl) Crystals—Z. B. Baturicheva, N. Yu. Gurevich, and Yu. A. Tsirlin. 19, 136 (1965) [19, 242 (1965)]
BELENOV, E. M.
On the Generation of Sharply Directed Coherent Radiation—E. M. Belenov and V. S. Letokhov. 19, 261 (1965) [19, 465 (1965)]
BELYAEV, L. M.
On the Luminescence of Neodymium and Chromium in Yttrium Aluminum Garnet—P. P. Feofilov, V. A. Timofeeva, M. N. Tolstoi, and L. M. Belyaev. 19, 451 (1965) [19, 817 (1965)]
BELYAEVSKAYA, N. M.
On the Relationship between Certain Spectral Characteristics and the Reactivity of Aromatic Compounds. I. Para- and Meta-Nitro Disubstitution Products of Benzene—Ya. S. Bobovich and N. M. Belyaevskaya. 19, 111 (1965) [19, 198 (1965)]
BERDNIKOV, S. L.
On the Effect of Admixtures of Vanadium Pentoxide on the Luminescence of Zinc Oxide—S. L. Berdnikov and Ya. M. Zelikin. 19, 339 (1965) [19, 611 (1965)]
BERMAN, L. V.
Optical Properties of CaF_2 in the Wavelength Range 170–600 μ—L. V. Berman and A. G. Zhukov. 19, 433 (1965) [19, 783 (1965)]
BERZIN, B. Ya.
Spectroscopy of Some Activated Alkali-Halide Crystals Based on Kinetic Investigations of Intracenter Luminescence—M. F. Trinkler, I. K. Plyavin, B. Ya. Berzin, and A. K. Everte. 19, 213 (1965) [19, 378 (1965)]
BIBERMAN, L. M.
Radiation Transfer in an Ionization Continuum—L. M. Biberman, V. S. Vorobyev, and A. N. Lagarkov. 19, 186 (1965) [19, 326 (1965)]
The Relationship Between the Probabilities of Second-Order Radiation Processes in Perturbation Theory—L. M. Biberman, A. Kh. Mnatsakanyan, and A. N. Starostin. 19, 272 (1965) [19, 487 (1965)]
BOBOVICH, Ya. S.
On the Relationship between Certain Spectral Characteristics and the Reactivity of Aromatic Compounds. I. Para- and Meta-Nitro Disubstitution Products of Benzene—Ya. S. Bobovich and N. M. Belyaevskaya. 19, 111 (1965) [19, 198 (1965)]
On the Existence of a Correlation between the Reactivity of Aromatic Nitro Compounds and Their Interaction with a Solvent—Ya. S. Bobovich. 19, 157 (1965) [19, 279 (1965)]
Spectroscopic Evidence of Intra- and Intermolecular Interactions of Nitro Groups—Ya. S. Bobovich. 19, 493 (1965) [19, 886 (1965)]
BOIKOVA, R. F.
Calculation of Cross Sections for the Excitation of the Energy Levels of Inert Gases by Electrons—R. F. Boikova and E. E. Fradkin. 19, 470 (1965) [19, 843 (1965)]
BOLOTOVSKII, B. M.
Radiation of a Charge Moving Above a Diffraction Grating—B. M. Bolotovskii and A. K. Burtsev. 19, 263 (1965) [19, 469 (1965)]
BONCH-BRUEVICH, A. M.
The Wavelength Dependence of the Duration of Luminescence within the Limits of the Luminescence Line Contour at a High Excitation Level—A. M. Bonch-Bruevich and T. K. Razumova. 19, 358 (1965) [19, 643 (1965)] (3)
Stimulated Raman Scattering in Selective Resonators—E. B. Aleksandrov, A. M. Bonch-Bruevich, N. N. Kostin, and V. A. Khodovoi. 19, 548 (1965) [19, 982 (1965)] (5)
BORISOV, M. G.
Experimental and Theoretical Study of Absolute Intensities in the Infrared Spectra of Gaseous Hydrocarbons. II. Propylene and Isobutylene—A. G. Finkel, M. G. Borisov, and I. M. Sverdlov. 19, 33 (1965) [19, 65 (1965)] (4)
BRATANOVA, L. I.
Principal Parameters of the Raman Lines of the Monohalogenobenzenes and Their Variation with Temperature and Solvent—N. K. Sidorov, L. I. Bratanova, and L. S. Stalmakhova. 19, 116 (1965) [19, 206 (1965)] (4)
BRATTSEV, V. F.
Exchange Excitation of Helium by Electron Impact—V. L. Ochkur and V. F. Brattsev. 19, 274 (1965) [19, 490 (1965)] (3)
BRODIN, M. S.
The Oscillator Strength of the First Electronic Transition of Crystalline Anthracene—M. S. Brodin and S. V. Marisova. 19, 132 (1965) [19, 235 (1965)] (3)
Indirect Transitions in the CdS Crystal—M. S. Brodin, N. I. Vitrikhovskii, and M. V. Kurik. 19, 247 (1965) [19, 444 (1965)] (4)
BRUSYANOVA, E. B.
Thermal Excitation of the Spectrum of Molecular Nitrogen—E. B. Brusyanova, V. N. Kolesnikov, and N. N. Sobolev. 19, 453 (1965) [19, 819 (1965)] (4)
BUGRIM, E. D.
New Bands in the Swan System of the C_2 Molecule—E. D. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 19, 292 (1965) [19, 524 (1965)] (5)
BULANIN, M. O.
The Inversion of Ammonia Molecules in Solution—N. I. Bagdanskis and M. O. Bulanin. 19, 128 (1965) [19, 229 (1965)] (3)
Infrared Absorption Band Shapes and the Rotational Motion of Molecules in Liquids. Hydrogen Halide Solutions—M. O. Bulanin, N. D. Orlova, and D. N. Shchepkin. 19, 406 (1965) [19, 731 (1965)] (4)
BUNDEL, A. A.
The Effect of Oxygen on the Spectrum of Electron Traps in Luminescent Zinc Sulfide—A. A. Bundel and G. V. Zhukov. 19, 139 (1965) [19, 247 (1965)] (3)
BURTSEV, A. K.
Radiation of a Charge Moving Above a Diffraction Grating—B. M. Bolotovskii and A. K. Burtsev. 19, 263 (1965) [19, 469 (1965)] (3)
BYSTROV, V. F.
Three-Membered Ring Compounds. I. The Proton Magnetic Resonance Spectra and the Inversion of Nitrogen in N-Substituted Ethyleneimines—V. F. Bystrov, R. G. Kostyanovskii, O. A. Panshin, A. U. Stepanyants, and O. A. Iuzhakova. 19, 122 (1965) [19, 217 (1965)] (6)
CHAIKA, M. P.
Structure of the Radiation Field of a Gas Laser with Spherical Mirrors—S. G. Zeiger, N. I. Kaliteevskii, E. E. Fradkin, and M. P. Chaika. 19, 144 (1965) [19, 255 (1965)] (5)

Determination of the Hyperfine Structure Constants of Cesium from the Intersection of Magnetic Sublevels—Kh. Kallas, G. Markova, G. Khvostenko, and M. Chaika. 19, 173 (1965) [19, 303 (1965)]
Determination of the Lifetime of the Excited $7^2P_{3/2}$ State of Cesium from Double Resonance Experiments—E. L. Altman and M. P. Chaika. 19, 538 (1965) [19, 968 (1965)]

CHARNAYA, F. A.
Study of Absorption in the Channel of High-Pressure Pulse Discharge—F. A. Charnaya and Z. G. Yakob. 19, 101 (1965) [19, 181 (1965)]

CHEBANOVA, T. S.
Effect of Self-Shadowing on the Coefficient of Reflection from the Cleaved Surface of a Monocrystal—I. S. Zhitomirskii, T. S. Chebanova, and M. I. Shakhnovich. 19, 229 (1965) [19, 409 (1965)]

CHEPELEV, V. V.
The Scintillation Excitation Mechanism in Thallium-Activated Sodium Iodide—Ya. M. Zakharko and V. V. Chepelev. 19, 462 (1965) [19, 831 (1965)]

CHERKASOV, A. S.
Fluorometric Study of the Effect of Solvent on the Fluorescence Spectrum of 3-Amino-N-Methylphthalimide—T. V. Veselova, L. A. Limareva, A. S. Cherkasov, and V. I. Shirokov. 19, 39 (1965) [19, 78 (1965)]

CHIZHIKOVA, Z. A.
Luminescence and Absorption of Excited Ruby—M. D. Galanin, V. N. Smorchkov, and Z. A. Chizhikova. 19, 168 (1965) [19, 296 (1965)]

CHORNII, Z. P.
The Dependence of the Spectral Composition of Radioluminescence on the Intensity of the Exciting Radiation—Z. P. Chornii and A. B. Lyskovich. 19, 248 (1965) [19, 446 (1965)]

CHUDAKOV, V. S.
On the Determination of the Energy Spectrum of an Impurity Ion with an Unfilled d Shell in a Crystal—A. N. Men, A. V. Sokolov, N. A. Zvezdina, Yu. N. Kurushin, B. M. Nekoshnov, and V. S. Chudakov. 19, 325 (1965) [19, 586 (1965)]

DEMKOV, Yu. N.
Stark Effect for the Rotational Levels of Molecules in Strong Fields—A. V. Gaponov, Yu. N. Demkov, N. G. Protopopova, and V. M. Fain. 19, 279 (1965) [19, 501 (1965)]

DMITRIEVSKII, O. D.
An Infrared Ultrafast Spectrometer—O. D. Dmitrievskii and I. P. Kotlyar. 19, 177 (1965) [19, 310 (1965)]
Phototransfer of an Electron from Aromatic Amines to Solvents under Pulse Excitation—O. D. Dmitrievskii. 19, 460 (1965) [19, 828 (1965)]

DOLGUSHIN, M. D.
Construction of Potential Curves for Diatomic Molecules of Copper, Silver, and Gold—M. D. Dolgushin. 19, 289 (1965) [19, 519 (1965)]

DREIDEN, G. V.
Electro-Optic Effect in ZnSe Crystals—I. I. Adrianova, G. V. Dreiden, K. K. Dubenskii, Yu. V. Popov, and V. A. Sokolov. 19, 75 (1965) [19, 142 (1965)]

DUBENSKII, K. K.
Electro-Optic Effect in ZnSe Crystals—I. I. Adrianova, G. V. Dreiden, K. K. Dubenskii, Yu. V. Popov, and V. A. Sokolov. 19, 75 (1965) [19, 142 (1965)]
Luminescence and Absorption Associated with the Lower Terms of Co^{2+} and Ni^{2+} Ions in Single Crystals of ZnS—K. K. Dubenskii, Ya. E. Kariss, A. I. Ryskin, P. P. Feofilov, and G. I. Khilko. 19, 353 (1965) [19, 635 (1965)]

DUDKIN, V. A.
Broadening of Emission Lines of Thallium by Molecular Hydrogen—V. A. Dudkin, T. L. Andreeva, V. I. Malyshev, and V. N. Sorokin. 19, 99 (1965) [19, 177 (1965)]

DUNINA, A. A.
Growth of the Initial Intensity of X-Ray Luminescence in Alkali-Halide Phosphors under Repeated Excitations—L. M. Shamovskii and A. A. Dunina. 19, 429 (1965) [19, 776 (1965)]

DUSHIN, L. A.
Bremsstrahlung in the Infrared Region from the Plasma of the Electrodeless Induction Discharge—L. A. Dushin, V. I. Kononenko, O. S. Pavlichenko, and I. K. Nikolskii. 19, 378 (1965) [19, 674 (1965)]

DYAKONOV, M. I.
Measurement of Hyperfine Structure Using Resonance Scattering of Modulated Light—M. I. Dyakonov. 19, 372 (1965) [19, 662 (1965)]

EDITOR
B. P. Kozyrev, on His 70th Birthday. 19, 178 (1965) [19, 312 (1965)]
Andrei Petrovich Lukirskii (1928-1965). 19, 367 (1965) [19, 656 (1965)]

EGOROV, V. N.
The Excitation and Characteristics of the Thorium Spectrum in Electrodeless Discharge Tubes—V. N. Egorov and O. V. Runkov. 19, 284 (1965) [19, 511 (1965)]

ERSHOV, O. A.
Reflection of X Rays with Wavelengths from 23.6 to 190.3 Å.
Some Remarks on the Performance of Diffraction Gratings—A. P. Lukirskii, E. P. Savinov, O. A. Ershov, I. I. Zhukova, and V. A. Fomichev. 19, 237 (1965) [19, 425 (1965)]

EVARESTOV, R. A.
Study of the Optical Properties of Molecular Hydrogen Using the Variation Method of Perturbation Theory—M. N. Adamov and R. A. Evarestov. 19, 362 (1965) [19, 648 (1965)]

EVERTE, A. K.
Spectroscopy of Some Activated Alkali-Halide Crystals Based on Kinetic Investigations of Intracenter Luminescence—M. F. Trinkler, I. K. Plyavin, B. Ya. Berzin, and A. K. Everte. 19, 213 (1965) [19, 378 (1965)]

FAIDYSH, A. N.
Temperature Dependence of the Quantum Yields of Luminescence in Pure and Impurity-Admixed Crystals of Anthracene and Naphthalene—V. L. Zima and A. N. Faidysh. 19, 203 (1965) [19, 359 (1965)]

FAIN, V. M.
Stark Effect for the Rotational Levels of Molecules in Strong Fields—A. V. Gaponov, Yu. N. Demkov, N. G. Protopopova, and V. M. Fain. 19, 279 (1965) [19, 501 (1965)]

FEDOROV, V. L.
The Polarization of Radiation Excited by Electron Impact V. L. Fedorov and A. P. Mezentsev. 19, 5 (1965) [19, 12 (1965)]

FEOFILOV, P. P.
A New Journal on Quantum Electronics—P. P. Feofilov. 19, 262 (1965) [19, 468 (1965)]

Luminescence and Absorption Associated with the Lower Terms of Co^{2+} and Ni^{2+} Ions in Single Crystals of ZnS—K. K. Dubenskii, Ya. E. Kariss, A. I. Ryskin, P. P. Feofilov, and G. I. Khilko. 19, 353 (1965) [19, 635 (1965)]

On the Removal of Degeneracy of the Levels of Cubic Activator Centers in Mixed Crystals of the Fluorite Type—M. N. Tolstoi and P. P. Feofilov. 19, 448 (1965) [19, 812 (1965)]

On the Luminescence of Neodymium and Chromium in Yttrium Aluminum Garnet—P. P. Feofilov, V. A. Timofeeva, M. N. Tolstoi, and L. M. Belyaev. 19, 451 (1965) [19, 817 (1965)]

Luminescence of Chromium and Manganese Ions in Lanthanum Aluminate Crystals—Z. N. Zonn, V. A. Ioffe, and P. P. Feofilov. 19, 541 (1965) [19, 973 (1965)]

FINKEL, A. G.

Experimental and Theoretical Study of Absolute Intensities in the Infrared Spectra of Gaseous Hydrocarbons. II. Propylene and Isobutylene—A. G. Finkel, M. G. Borisov, and I. M. Sverdlov. 19, 33 (1965) [19, 65 (1965)]

FOMICHEV, V. A.

Reflection of X Rays with Wavelengths from 23.6 to 190.3 Å. Some Remarks on the Performance of Diffraction Gratings—A. P. Lukirskii, E. P. Savinov, O. A. Ershov, I. I. Zhukova, and V. A. Fomichev. 19, 237 (1965) [19, 425 (1965)]

Bremsstrahlung of a Tungsten Anode in the 25-250 Å Region—A. P. Lukirskii and V. A. Fomichev. 19, 441 (1965) [19, 800 (1965)]

FRADKIN, E. E.

Structure of the Radiation Field of a Gas Laser with Spherical Mirrors—S. G. Zeiger, N. I. Kaliteevskii, E. E. Fradkin, and M. P. Chaika. 19, 144 (1965) [19, 255 (1965)]

Calculation of Cross Sections for the Excitation of the Energy Levels of Inert Gases by Electrons—R. F. Boikova and E. E. Fradkin. 19, 470 (1965) [19, 843 (1965)]

FRANGULYAN, T. S.

F and M Absorption Bands in Solid Solutions of the KCl-KBr System—T. S. Frangulyan. 19, 170 (1965) [19, 299 (1965)]

FYODOROV, V. L.

Polarization of the 5770-Å Mercury Line Arising from Electron Impact—V. L. Fyodorov. 19, 79 (1965) [19, 147 (1965)]

GABRICHIDZE, Z. A.

Study of the Raman Spectra of Water, Saturated Aqueous Solutions of Electrolytes, and Ice—Z. A. Gabrichidze. 19, 319 (1965) [19, 575 (1965)]

The Raman Spectrum of Crystalline Lithium Monohydrosulfate—Z. A. Gabrichidze. 19, 507 (1965) [19, 913 (1965)]

GALANIN, M. D.

Luminescence and Absorption of Excited Ruby—M. D. Galanin, V. N. Smorchkov, and Z. A. Chizhikova. 19, 168 (1965) [19, 296 (1965)]

GAPONOV, A. V.

Stark Effect for the Rotational Levels of Molecules in Strong Fields—A. V. Gaponov, Yu. N. Demkov, N. G. Protopopova, and V. M. Fain. 19, 279 (1965) [19, 501 (1965)]

GASTILOVICH, E. A.

Electro-Optical Parameters of the ≡C-Ge, ≡C-H, ≡C-Si Bonds of Some Acetylene Derivatives Containing One and Several Acetylene Groups—E. A. Gastilovich, D. N. Shigorin, N. V. Komarov, and O. G. Yarosh. 19, 162 (1965) [19, 287 (1965)] (4)

Estimation of the Electrooptical Parameters of Some Acetylene Derivatives by the Infrared Spectra Method—E. A. Gastilovich, D. N. Shigorin, and N. V. Komarov. 19, 201 (1965) [19, 354 (1965)] (4)

GERASIMOV, F. M.

The Use of Moiré Interference Fringes to Control the Ruling of Diffraction Gratings—F. M. Gerasimov, V. P. Sergeev, I. A. Teltevskii, V. V. Sergeev, and B. V. Marichev. 19, 152 (1965) [19, 270 (1965)] (6)

GERLOVIN, Ya. I.

Determination of the Relative Optical Collision Diameters of Nitrous Oxide Molecules by the Optico-acoustic Method—Ya. I. Gerlovin. 19, 384 (1965) [19, 685 (1965)] (2)

GISIN, M. A.

Optical Properties of Thermally Deposited Antimony Trisulfide and Tellurium Layers in the Infrared Spectral Region—A. S. Valeev and M. A. Gisin. 19, 62 (1965) [19, 121 (1965)] (3)

GODNEV, I. N.

Application of the Lagrange Equations with Nonvanishing Couplings for Setting Up the Theory of Molecular Vibrations in Dependent Coordinates—I. N. Godnev, A. A. Zaitsev, and I. V. Rigina. 19, 486 (1965) [19, 874 (1965)] (4)

GOLDFARB, V. M.

A Simple Technique for Determining the Temperature and Electron Concentration of a One-Component Plasma—V. M. Goldfarb. 19, 160 (1965) [19, 284 (1965)] (2)

GOLDMAN, A. G.

Three Types of Gudden-Pohl Effect and the Phosphorescence of Copper-Activated Zinc Sulfide—A. G. Goldman, A. I. Proskura, and S. F. Lysenko. 19, 524 (1965) [19, 943 (1965)] (4)

GOLOVIN, A. F.

Isotope Shift and Deformations of Ytterbium Nuclei—A. F. Golovin and A. R. Striganov. 19, 467 (1965) [19, 837 (1965)]

GOLOYADOVA, V. I.

Wide-Angle Interference of Light—I. N. Shklyarevskii and V. I. Goloyadova. 19, 165 (1965) [19, 292 (1965)] (3)

GOLUBITSKII, B. M.

On the Calculation of the Thermal Radiation of the Atmosphere—B. M. Golubitskii. 19, 175 (1965) [19, 306 (1965)] (2)

On a Method for Eliminating Slit Distortions in a Spectral Instrument—B. M. Golubitskii. 19, 356 (1965) [19, 640 (1965)] (2)

GOLOVKINA, E. D.

Low-Voltage Electroluminescence of Evaporated ZnS-Cu, Mn, Cl Films in a dc Field—E. D. Golovkina, V. V. Pasynkov, and G. N. Khanina. 19, 158 (1965) [19, 281 (1965)] (4)

GONCHARENKO, A. M.

On the Relationship between the Radiation Coherence and the Number of Modes of a Laser—B. A. Sotskii and A. M. Goncharenko. 19, 435 (1965) [19, 788 (1965)] (3)

GORBAN, N. Ya.

Optical Properties of Ni-Cu Alloys in the Visible Region of the Spectrum—N. Ya. Gorban and I. A. Shaikevich. 19, 69 (1965) [19, 133 (1965)] (3)

GRANKINA, Z. A.

Spectroscopic Determination of the Indices of Refraction of Polycrystalline Specimens—S. S. Batsanov and Z. A. Grankina. 19, 449 (1965) [19, 814 (1965)] (3)

GRECHUSHNIKOV, B. N.
Photographic Method of Recording in Fourier Spectrometry —I. P. Petrov and B. N. Grechushnikov. 19, 82 (1965) [19, 151 (1965)]
GUREVICH, N. Yu.
Some Trapping Centers in NaI(Tl) Crystals—Z. B. Baturicheva, N. Yu. Gurevich, and Yu. A. Tsirlin. 19, 136 (1965) [19, 242 (1965)]
GURINOVICH, G. P.
Polarization of the Fluorescence of Metalloporphyrins—G. P. Gurinovich, A. I. Patsko, K. N. Solovev, and S. F. Shkirman. 19, 134 (1965) [19, 239 (1965)]
GURVICH, L. V.
A New Study of the Emission Spectrum of the SrCl Molecule —M. M. Novikov and L. V. Gurvich. 19, 76 (1965) [19, 143 (1965)]
HEVESI, J.
Study of the Quantum Yield of Anti-Stokes Fluorescence—J. Hevesi and L. Kozma. 19, 241 (1965) [19, 434 (1965)]
IKRAMOV, Kh. U.
Vibrational Frequencies of Coordinated Hydroxylamine—Yu. Ya. Kharitonov, M. A. Sarakhanov, I. B. Baranovskii, and Kh. U. Ikramov. 19, 257 (1965) [19, 460 (1965)]
IOFFE, V. A.
Luminescence of Chromium and Manganese Ions in Lanthanum Aluminate Crystals—Z. N. Zonn, V. A. Ioffe, and P. P. Feofilov. 19, 541 (1965) [19, 973 (1965)]
IOGANSEN, L. V.
Total Internal Reflection Filter. IV—L. V. Iogansen. 19, 225 (1965) [19, 403 (1965)]
ISAENKO, V. I.
Effect of Mirror Misalignment on the Losses in a Fabry-Perot Resonator—M. P. Vanyukov, V. I. Isaenko, V. P. Kalinin, and V. V. Lyubimov. 19, 161 (1965) [19, 286 (1965)]
ISHCHENKO, I. K.
Hydrogen Bond Energies and Shifts of the Stretching Vibration Bands of C=O Groups—B. A. Zadorozhnyi and I. K. Ishchenko. 19, 306 (1965) [19, 551 (1965)]
IUZHAKOVA, O. A.
Three-Membered Ring Compounds. I. The Proton Magnetic Resonance Spectra and the Inversion of Nitrogen in N-Substituted Ethyleneimines—V. F. Bystrov, R. G. Kostyanovskii, O. A. Panshin, A. U. Stepanyants, and O. A. Iuzhakova. 19, 122 (1965) [19, 217 (1965)]
IVANOV, E. E.
Theory of the Shape and Width of Depolarized Lines in the Raman Spectra of Molecular Crystals—E. E. Ivanov and K. A. Valiev. 19, 499 (1965) [19, 897 (1965)]
KAGAN, V. K.
Calculation of the Optical Polarizability of the Hydrogen Atom with the Use of a Power Series—M. N. Adamov, V. K. Kagan, and B. I. Orlov. 19, 171 (1965) [19, 300 (1965)]
KAGAN, Yu. M.
Concerning the Rotation of the Positive Column of the Discharge in a Magnetic Field—V. M. Zakharova and Yu. M. Kagan. 19, 74 (1965) [19, 140 (1965)]
KALININ, V. P.
Effect of Mirror Misalignment on the Losses in a Fabry-Perot Resonator—M. P. Vanyukov, V. I. Isaenko, V. P. Kalinin, and V. V. Lyubimov. 19, 161 (1965) [19, 286 (1965)]
KALITEEVSKII, N. I.
Structure of the Radiation Field of a Gas Laser with Spherical Mirrors—S. G. Zeiger, N. I. Kaliteevskii, E. E. Fradkin, and M. P. Chaika. 19, 144 (1965) [19, 255 (1965)] (5)
KALLAS, Kh.
Determination of the Hyperfine Structure Constants of Cesium from the Intersection of Magnetic Sublevels—Kh. Kallas, G. Markova, G. Khvostenko, and M. Chaika. 19, 173 (1965) [19, 303 (1965)] (5)
KAPELEVSKII, Yu.
Theoretical Studies of Phenomena Associated with Level Crossing in Na^{23} and Rb^{85}—Yu. Kapelevskii and K. Rosinskii. 19, 70 (1965) [19, 135 (1965)] (3)
KAPLAN, I. G.
The Calculation of Cross Sections for the Excitation of Molecular Levels by Collision with Fast Electrons, and the Additivity Rule for Atomic Stopping Powers—I. G. Kaplan and A. P. Markin. 19, 476 (1965) [19, 856 (1965)] (3)
KAPLYANSKII, A. A.
Deformation Splitting and Enhancement of Spectral Lines and the Structure of Excited Levels of Eu^{2+} in Alkali-Earth Fluoride Crystals—A. A. Kaplyanskii and A. K. Przhevuskii. 19, 331 (1965) [19, 597 (1965)] (3)
KAPSHTAL, V. N.
New Method of Obtaining the Kinematic and Complete Interaction Coefficients of Isotopically Substituted Molecules Belonging to Low-Symmetry Groups—V. N. Kapshtal. 19, 189 (1965) [19, 331 (1965)] (2)
Determination of Supplementary Conditions among Deformational Coordinates—V. N. Kapshtal. 19, 544 (1965) [19, 977 (1965)] (2)
KARAPETYAN, G. O.
Chromium Sensitization of the Neodymium Luminescence in Glass—G. O. Karapetyan, V. P. Kovalyov, and S. G. Lunter. 19, 529 (1965) [19, 951 (1965)] (4)
KARASEVA, N. V.
Reevaluation of the Spectroscopic Dissociation Energies of Subhalides of the IIa Group—K. S. Krasnov and N. V. Karaseva. 19, 14 (1965) [19, 30 (1965)] (3)
KARISS, Ya. E.
Luminescence and Absorption Associated with the Lower Terms of Co^{2+} and Ni^{2+} Ions in Single Crystals of ZnS—K. K. Dubenskii, Ya. E. Kariss, A. I. Ryskin, P. P. Feofilov, and G. I. Khilko. 19, 353 (1965) [19, 635 (1965)] (6)
KATAYEV, D. I.
On the D_{JK} Value for the Cyclopentene Molecule C_5H_8—S. I. Subbotin, V. I. Tyulin, D. I. Katayev, and V. M. Tatevskii. 19, 361 (1965) [19, 647 (1965)] (5)
KHANINA, G. N.
Low-Voltage Electroluminescence of Evaporated ZnS-Cu, Mn, Cl Films in a dc Field—E. D. Golovkina, V. V. Pasynkov, and G. N. Khanina. 19, 158 (1965) [19, 281 (1965)] (4)
KHAPALYUK, A. P.
Range of Validity of the Transport Equations—A. P. Khapalyuk. 19, 218 (1965) [19, 387 (1965)] (2)
KHARITONOV, Yu. Ya.
Vibrational Frequencies of Coordinated Hydroxylamine—Yu. Ya. Kharitonov, M. A. Sarakhanov, I. B. Baranovskii, and Kh. U. Ikramov. 19, 257 (1965) [19, 460 (1965)] (5)

KHILKO, G. I.
Luminescence and Absorption Associated with the Lower Terms of Co^{2+} and Ni^{2+} Ions in Single Crystals of ZnS—K. K. Dubenskii, Ya. E. Kariss, A. I. Ryskin, P. P. Feofilov, and G. I. Khilko. 19, 353 (1965) [19, 635 (1965)] (4)

KHODOVOI, V. A.
Stimulated Raman Scattering in Selective Resonators—E. B. Aleksandrov, A. M. Bonch-Bruevich, N. N. Kostin, and V. A. Khodovoi. 19, 548 (1965) [19, 982 (1965)] (3)

KHVOSTENKO, G.
Determination of the Hyperfine Structure Constants of Cesium from the Intersection of Magnetic Sublevels—Kh. Kallas, G. Markova, G. Khvostenko, and M. Chaika. 19, 173 (1965) [19, 303 (1965)] (2)

KISELEV, A. A.
On the Choice of the Moving Coordinate System in the Theory of the Rotational-Vibrational Spectra of Polyatomic Molecules—A. A. Kiselev and I. V. Abarenkov. 19, 464 (1965) [19, 834 (1965)] (5)

KISELEVA, M. S.
Measurement of the Moisture of Gas Mixtures by Infrared Absorption Spectra. II. Determination of the Vertical Distribution of Water Vapor in the Atmosphere from High-Altitude Measurements of the Solar Spectrum—M. S. Kiseleva and B. S. Neporent. 19, 513 (1965) [19, 923 (1965)] (5)

KISLOVSKII, L. D.
On the Choice of the Optimum Conditions for the Production of Spectra by the Frustrated Total Internal Reflection Method—V. M. Zolotarev and L. D. Kislovskii. 19, 346 (1965) [19, 623 (1965)] (4)

On the Possibilities of Studying Band Contours in Frustrated Total Internal Reflection Spectrophotometry—V. M. Zolotarev and L. D. Kislovskii. 19, 446 (1965) [19, 809 (1965)] (4)

KLECHKOVSKII, V. M.
The Consecutive Filling Rule for (n + 1) Groups and the Multiplicity of the Ground Term of Atoms—V. M. Klechkovskii. 19, 245 (1965) [19, 441 (1965)] (3)

KLOCHKOV, V. P.
Absorption and Emission Band Contours of Complex Molecules—V. P. Klochkov. 19, 192 (1965) [19, 337 (1965)] (3)

KOLESNIKOV, V. N.
Thermal Excitation of the Spectrum of Molecular Nitrogen—E. B. Brusyanova, V. N. Kolesnikov, and N. N. Sobolev. 19, 453 (1965) [19, 819 (1965)] (5)

KOLPAKOV, Yu. D.
Light Scattering in the Vicinity of the Critical Liquid-Vapor Point. I. Apparatus. Experiments with Carbon Dioxide and Sulfur Hexafluoride—V. P. Skripov and Yu. D. Kolpakov. 19, 220 (1965) [19, 392 (1965)] (3)

Light Scattering in the Vicinity of the Critical Liquid-Vapor Point. II. Breakdown of the Rayleigh Scattering Law—Yu. D. Kolpakov and V. P. Skripov. 19, 342 (1965) [19, 616 (1965)] (3)

Determination of the Correlation Distance Near the Critical Point by the Scattering of Light—V. P. Skripov and Yu. D. Kolpakov. 19, 360 (1965) [19, 645 (1965)] (3)

KOMAROV, N. V.
Electro-Optical Parameters of the ≡C-Ge, ≡C-H, ≡C-Si Bonds of Some Acetylene Derivatives Containing One and Several Acetylene Groups—E. A. Gastilovich, D. N. Shigorin, N. V. Komarov, and O. G. Yarosh. 19, 162 (1965) [19, 287 (1965)] (4)

Estimation of the Electrooptical Parameters of Some Acetylene Derivatives by the Infrared Spectra Method—E. A. Gastilovich, D. N. Shigorin, and N. V. Komarov. 19, 201 (1965) [19, 354 (1965)] (4)

KONDILENKO, I. I.
Frequency Dependence of the Intensity of Fundamentals in Raman Spectra—I. I. Kondilenko and V. E. Pogorelov. 19, 20 (1965) [19, 41 (1965)] (3)

KONDRATYEV, Yu. N.
On the Mechanism of Inter-Cation d-d Interaction in Glasses and Polycrystalline Materials—Yu. N. Kondratyev. 19, 255 (1965) [19, 458 (1965)] (2)

KONONENKO, V. I.
Bremsstrahlung in the Infrared Region from the Plasma of the Electrodeless Induction Discharge—L. A. Dushin, V. I. Kononenko, O. S. Pavlichenko, and I. K. Nikolskii. 19, 378 (1965) [19, 674 (1965)] (5)

KONONOV, E. Ya.
Spectra of Multiply Ionized Krypton Atoms—E. Ya. Kononov and S. L. Mandelshtam. 19, 78 (1965) [19, 145 (1965)] (3)

KOPTEV, G. S.
Calculation of the Frequencies and Forms of the Vibrations of Two Isotopic Forms of the 1,3-Butadiene Molecule, C_4H_6 and C_4D_6—G. S. Koptev, Yu. N. Panchenko, V. I. Tyulin, and V. M. Tatevskii. 19, 108 (1965) [19, 194 (1965)] (5)

KOROLEV, F. A.
A Study of Certain Characteristics of a Helium-Neon Laser—F. A. Korolev, A. I. Odintsov, and V. N. Mitsai. 19, 36 (1965) [19, 71 (1965)] (4)

KOROLKOV, V. S.
Interpretation of the Fine Structure of the Spectra of Eu Coordination Compounds of the MX_3 Type. I. Theory. Spectrum of Eu Benzoylacetonate—V. S. Korolkov and V. V. Kuznetsova. 19, 423 (1965) [19, 764 (1965)] (3)

KORTUKOVA, E. M.
Optical Properties of Polycrystalline InSb Films—S. A. Semiletov, P. S. Agalarzade, and E. M. Kortukova. 19, 142 (1965) [19, 252 (1965)] (4)

KOSIKHIN, V. F.
Study of Optical and Thermal De-Excitation of the NaCl(Cu) Phosphor—L. M. Shamovskii and V. F. Kosikhin. 19, 52 (1965) [19, 102 (1965)] (3)

KOSTIN, N. N.
Stimulated Raman Scattering in Selective Resonators—E. B. Aleksandrov, A. M. Bonch-Bruevich, N. N. Kostin, and V. A. Khodovoi. 19, 548 (1965) [19, 982 (1965)] (5)

KOSTINSKAYA, T. A.
Stimulated Emission of Praseodymium in Calcium Tungstate—V. L. Bakumenko, G. S. Kozina, T. A. Kostinskaya, E. P. Lupachev, and E. S. Rvacheva. 19, 68 (1965) [19 132 (1965)] (6)

KOSTYANOVSKII, R. G.
Three-Membered Ring Compounds. I. The Proton Magnetic Resonance Spectra and the Inversion of Nitrogen in N-Substituted Ethyleneimines—V. F. Bystrov, R. G. Kostyanovskii, O. A. Panshin, A. U. Stepanyants, and O. A. Iuzhakova. 19, 122 (1965) [19, 217 (1965)] (6)

KOTLYAR, I. P.
An Infrared Ultrafast Spectrometer—O. D. Dmitrievskii and I. P. Kotlyar. 19, 177 (1965) [19, 310 (1965)] (3)

KOVALYOV, V. P.
Chromium Sensitization of the Neodymium Luminescence in Glass—G. O. Karapetyan, V. P. Kovalyov, and S. G. Lunter. 19, 529 (1965) [19, 951 (1965)]
KOZINA, G. S.
Stimulated Emission of Praseodymium in Calcium Tungstate—V. L. Bakumenko, G. S. Kozina, T. A. Kostinskaya, E. P. Lupachev, and E. S. Rvacheva. 19, 68 (1965) [19 132 (1965)]
KOZMA, L.
Study of the Quantum Yield of Anti-Stokes Fluorescence—J. Hevesi and L. Kozma. 19, 241 (1965) [19, 434 (1965)]
KRASNOV, K. S.
Reevaluation of the Spectroscopic Dissociation Energies of Subhalides of the IIa Group—K. S. Krasnov and N. V. Karaseva. 19, 14 (1965) [19, 30 (1965)]
KRAULINYA, E. K.
Absolute Intensities of Thallium Spectral Lines in Sensitized Fluorescence of Mercury and Thallium Vapors—E. K. Kraulinya, A. E. Lezdin, and Yu. A. Silin. 19, 84 (1965) [19, 154 (1965)]
KRONROD, L. A.
Quasiclassical Wave Functions of the Morse Oscillator and Their Application to the Calculation of Franck-Condon Factors. III. Approximate Calculation of Franck-Condon Factors on an Electronic Computer—N. I. Zhirnov and L. A. Kronrod. 19, 484 (1965) [19, 871 (1965)]
KRUGLIK, G. S.
Effects of the Collective Properties of a System of Identical Atoms on the Scattering of Radiation—G. S. Kruglik. 19, 96 (1965) [19, 171 (1965)]
KRUSHINSKII, L. L.
On the Theory of the Intensities of Raman Lines. VI. On the Agreement of the Results of the Quantum and Classical Theories—L. L. Krushinskii and P. P. Shorygin. 19, 312 (1965) [19, 562 (1965)]
KURIK, M. V.
Optical Properties of Zinc Telluride. I. Fundamental Absorption Edge—A. V. Savitskii, M. V. Kurik, and K. D. Tovstyuk. 19, 59 (1965) [19, 115 (1965)]
Indirect Transitions in the CdS Crystal—M. S. Brodin, N. I. Vitrikhovskii, and M. V. Kurik. 19, 247 (1965) [19, 444 (1965)]
KURIK, N. V.
On the Accuracy of Determination of the Absorption Coefficient of Semiconductors—N. V. Kurik. 19, 536 (1965) [19, 964 (1965)]
KURUSHIN, Yu. N.
On the Determination of the Energy Spectrum of an Impurity Ion with an Unfilled d Shell in a Crystal—A. N. Men, A. V. Sokolov, N. A. Zvezdina, Yu. N. Kurushin, B. M. Nekoshnov, and V. S. Chudakov. 19, 325 (1965) [19, 586 (1965)]
KUZNETSOVA, V. V.
Interpretation of the Fine Structure of the Spectra of Eu Coordination Compounds of the MX_3 Type. I. Theory. Spectrum of Eu Benzoylacetonate—V. S. Korolkov and V. V. Kuznetsova. 19, 423 (1965) [19, 764 (1965)]
KUZYAKOV, Yu. Ya.
Concerning the Vibrational Constants and Dissociation Energy of the CCl Molecule—I. E. Ovcharenko, Yu. Ya. Kuzyakov, and V. M. Tatevskii. 19, 294 (1965) [19, 528 (1965)]
LAGARKOV, A. N.
Radiation Transfer in an Ionization Continuum—L. M. Biberman, V. S. Vorobyev, and A. N. Lagarkov. 19, 186 (1965) [19, 326 (1965)] (4)
LASHKOV, G. I.
A Study of Photochromic Transformations in Spiropyrane Solutions Using the Luminescence Method—G. I. Lashkov and A. V. Shablya. 19, 455 (1965) [19, 821 (1965)] (3)
LETOKHOV, V. S.
On the Generation of Sharply Directed Coherent Radiation—E. M. Belenov and V. S. Letokhov. 19, 261 (1965) [19, 465 (1965)] (3)
LEVSHIN, V. L.
Fourteenth Luminescence Conference—V. L. Levshin. 19, 555 (1965) [19, 992 (1965)] (2)
LEZDIN, A. E.
Absolute Intensities of Thallium Spectral Lines in Sensitized Fluorescence of Mercury and Thallium Vapors—E. K. Kraulinya, A. E. Lezdin, and Yu. A. Silin. 19, 84 (1965) [19, 154 (1965)] (4)
LIBOV, V. S.
Quantitative Study of the Absorption and Dispersion of $CHCl_3$ and CCl_4 Solutions in the Region of Strong Infrared Absorption Bands—V. S. Libov and Yu. E. Zabiyakin. 19, 303 (1965) [19, 544 (1965)] (3)
LIFSHITS, E. V.
Spectroscopic Study of the Interaction Between Charged Particle Beams and Plasma—E. V. Lifshits. 19, 8 (1965) [19, 19 (1965)] (2)
LIMAREVA, L. A.
Fluorometric Study of the Effect of Solvent on the Fluorescence Spectrum of 3-Amino-N-Methylphthalimide—T. V. Veselova, L. A. Limareva, A. S. Cherkasov, and V. I. Shirokov. 19, 39 (1965) [19, 78 (1965)] (5)
LISITSYNA, L. A.
Growth of Absorption Bands in CaF_2 Crystals under Proton Irradiation—L. A. Lisitsyna. 19, 167 (1965) [19, 295 (1965)] (2)
LOBANOVA, N. V.
Possible Forms of Color Vision—N. V. Lobanova. 19, 66 (1965) [19, 128 (1965)] (2)
Test of a Hypothesis Concerning Anomalous Trichromatic Color Vision—N. V. Lobanova. 19, 250 (1965) [19, 448 (1965)] (2)
LUKIRSKII, A. P.
Reflection of X Rays with Wavelengths from 23.6 to 190.3 Å. Some Remarks on the Performance of Diffraction Gratings—A. P. Lukirskii, E. P. Savinov, O. A. Ershov, I. I. Zhukova, and V. A. Fomichev. 19, 237 (1965) [19, 425 (1965)] (6)
Bremsstrahlung of a Tungsten Anode in the 25-250 Å Region—A. P. Lukirskii and V. A. Fomichev. 19, 441 (1965) [19, 800 (1965)] (3)
LUNTER, S. G.
Chromium Sensitization of the Neodymium Luminescence in Glass—G. O. Karapetyan, V. P. Kovalyov, and S. G. Lunter. 19, 529 (1965) [19, 951 (1965)] (4)
LUPACHEV, E. P.
Stimulated Emission of Praseodymium in Calcium Tungstate—V. L. Bakumenko, G. S. Kozina, T. A. Kostinskaya, E. P. Lupachev, and E. S. Rvacheva. 19, 68 (1965) [19 132 (1965)] (6)

LVOV, B. V.
Determination of the Absolute Values of Oscillator Strengths by Combined Measurement of the Total and Linear Absorption of Vapor Layers in a Graphite Cell—B. V. Lvov. 19, 282 (1965) [19, 507 (1965)]
LYASH, A. V.
Excitation of Neon Atoms by Electron Impact—V. Ya. Veldre, A. V. Lyash, and L. L. Rabik. 19, 182 (1965) [19, 319 (1965)]
LYASHENKO, S. P.
Study of the Optical Properties of Tin Dioxide Thin Films in the Visible and Ultraviolet Regions—S. P. Lyashenko and V. K. Miloslavskii. 19, 55 (1965) [19, 108 (1965)]
LYSENKO, S. F.
Three Types of Gudden-Pohl Effect and the Phosphorescence of Copper-Activated Zinc Sulfide—A. G. Goldman, A. I. Proskura, and S. F. Lysenko. 19, 524 (1965) [19, 943 (1965)]
LYSKOVICH, A. B.
The Dependence of the Spectral Composition of Radioluminescence on the Intensity of the Exciting Radiation—Z. P. Chornii and A. B. Lyskovich. 19, 248 (1965) [19, 446 (1965)]
LYUBIMOV, V. V.
Effect of Mirror Misalignment on the Losses in a Fabry-Perot Resonator—M. P. Vanyukov, V. I. Isaenko, V. P. Kalinin, and V. V. Lyubimov. 19, 161 (1965) [19, 286 (1965)]
LYUTYI, A. I.
New Bands in the Swan System of the C_3 Molecule—E. D. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 19, 292 (1965) [19, 524 (1965)]
MALYSHEV, V. I.
Broadening of Emission Lines of Thallium by Molecular Hydrogen—V. A. Dudkin, T. L. Andreeva, V. I. Malyshev, and V. N. Sorokin. 19, 99 (1965) [19, 177 (1965)]
Investigation of the Dependence of Infrared Absorption Band Parameters on Viscosity—T. L. Andreyeva and V. I. Malyshev. 19, 120 (1965) [19, 213 (1965)]
MANDELSHTAM, S. L.
Spectra of Multiply Ionized Krypton Atoms—E. Ya. Kononov and S. L. Mandelshtam. 19, 78 (1965) [19, 145 (1965)]
MARICHEV, B. V.
The Use of Moiré Interference Fringes to Control the Ruling of Diffraction Gratings—F. M. Gerasimov, V. P. Sergeev, I. A. Teltevskii, V. V. Sergeev, and B. V. Marichev. 19, 152 (1965) [19, 270 (1965)]
MARISOVA, S. V.
The Oscillator Strength of the First Electronic Transition of Crystalline Anthracene—M. S. Brodin and S. V. Marisova. 19, 132 (1965) [19, 235 (1965)]
MARKIN, A. P.
The Calculation of Cross Sections for the Excitation of Molecular Levels by Collision with Fast Electrons, and the Additivity Rule for Atomic Stopping Powers—I. G. Kaplan and A. P. Markin. 19, 476 (1965) [19, 856 (1965)]
MARKOV, Yu. F.
Investigations of the Infrared Absorption Spectra of Antiferromagnetic Crystals with Hydrogen Bonds—A. I. Stekhanov, E. A. Popova, and Yu. F. Markov. 19, 323 (1965) [19, 583 (1965)]
MARKOVA, G.
Determination of the Hyperfine Structure Constants of Cesium from the Intersection of Magnetic Sublevels—Kh. Kallas, G. Markova, G. Khvostenko, and M. Chaika. 19, 173 (1965) [19, 303 (1965)] (5)
MARKOVA, S. V.
Experimental and Theoretical Study of Infrared Absorption Band Intensities in the Spectra of Some Organogermanium Compounds—S. V. Markova and G. Ya. Zueva. 19, 399 (1965) [19, 716 (1965)] (3)
MARUSHKO, I. A.
On the Line Width in Stimulated Raman Scattering—I. A. Marushko and V. S. Mashkevich. 19, 71 (1965) [19, 136 (1965)] (3)
MASHKEVICH, V. S.
On the Line Width in Stimulated Raman Scattering—I. A. Marushko and V. S. Mashkevich. 19, 71 (1965) [19, 136 (1965)] (3)
MAZURENKO, Yu. T.
Some Properties of Lasers from the Point of View of Thermodynamics—Yu. T. Mazurenko. 19, 85 (1965) [19, 156 (1965)] (2)
Effect of Intermolecular Interactions on the Absorption of Light by a System of Harmonic Oscillators—Yu. T. Mazurenko. 19, 490 (1965) [19, 881 (1965)] (2)
On the Effect of Light Gases on the Abosrption of Light by the Vapors of Aromatic Compounds—Yu. T. Mazurenko and B. S. Neporent. 19, 550 (1965) [19, 985 (1965)] (3)
MEDHI, K. C.
Vibrational Spectra of 3,5-Lutidine and Their Interpretation K. C. Medhi. 19, 24 (1965) [19, 49 (1965)] (2)
MEN, A. N.
On the Determination of the Energy Spectrum of an Impurity Ion with an Unfilled d Shell in a Crystal—A. N. Men, A. V. Sokolov, N. A. Zvezdina, Yu. N. Kurushin, B. M. Nekoshnov, and V. S. Chudakov. 19, 325 (1965) [19, 586 (1965)] (7)
MESHCHERYAKOV, A. V.
On the Threshold Power of a Laser with Disturbed Optical Adjustment—I. A. Rom-Krichevskaya, A. M. Ratner, and A. V. Meshcheryakov. 19, 149 (1965) [19, 264 (1965)] (4)
MEZENTSEV, A. P.
The Polarization of Radiation Excited by Electron Impact V. L. Fedorov and A. P. Mezentsev. 19, 5 (1965) [19, 12 (1965)] (3)
MILOSLAVSKII, V. K.
Study of the Optical Properties of Tin Dioxide Thin Films in the Visible and Ultraviolet Regions—S. P. Lyashenko and V. K. Miloslavskii. 19, 55 (1965) [19, 108 (1965)] (3)
Multiple-Beam Interference in a Wedge—V. K. Miloslavskii and A. N. Ryazanov. 19, 437 (1965) [19, 792 (1965)] (3)
MITSAI, V. N.
A Study of Certain Characteristics of a Helium-Neon Laser—F. A. Korolev, A. I. Odintsov, and V. N. Mitsai. 19, 36 (1965) [19, 71 (1965)] (4)
MNATSAKANYAN, A. Kh.
The Relationship Between the Probabilities of Second-Order Radiation Processes in Perturbation Theory—L. M. Biberman, A. Kh. Mnatsakanyan, and A. N. Starostin. 19, 272 (1965) [19, 487 (1965)] (4)

MOROSOV, E. N.
Determination of the Effective Cross Section for Second-Order Collisions of Mercury and Zinc Atoms—M. L. Sosinskii and E. N. Morosov. 19, 352 (1965) [19, 634 (1965)]
MOROZOV, V. A.
On the Theory of Resonant Rotational Raman Scattering. II. Depolarization and Reversal Coefficients of Rotation-Vibration Lines—V. A. Morozov. 19, 17 (1965) [19, 35 (1965)]
On the Theory of the Radiative Width of Spectral Lines—V. A. Morozov and P. P. Shorygin. 19, 164 (1965) [19, 289 (1965)]
MOROZOV, V. P.
On the Use of Effective Kinematic Coefficients to Take Account of Anharmonicity in Molecular Vibrations—A. Ya. Tsaune and V. P. Morozov. 19, 104 (1965) [19, 186 (1965)]
MOROZOVA, N. K.
Narrow Line Spectra of ZnS Single Crystals with Packing Faults—K. V. Shalimova and N. K. Morozova. 19, 522 (1965) [19, 939 (1965)]
MUKHTAROV, I. A.
Rotational Satellites of 1,2-Chlorofluoroethane—I. A. Mukhtarov. 19, 543 (1965) [19, 976 (1965)]
Centrifugal Perturbation Constants of the 1,1,2-Trifluoroethane Molecule—I. A. Mukhtarov and R. I. Mukhtarov. 19, 546 (1965) [19, 979 (1965)]
MUKHTAROV, R. I.
Centrifugal Perturbation Constants of the 1,1,2-Trifluoroethane Molecule—I. A. Mukhtarov and R. I. Mukhtarov. 19, 546 (1965) [19, 979 (1965)]
MULLER-BUSCHBAUM, H. K.
The Fluorescence of Rare Earths. III. Emission Spectra of Samarium in Fluorite-Type Phases and in Multi-Type Mixed Phases—H. K. Muller-Buschbaum and H. Witzmann. 19, 420 (1965) [19, 759 (1965)]
NEKOSHNOV, B. M.
On the Determination of the Energy Spectrum of an Impurity Ion with an Unfilled d Shell in a Crystal—A. N. Men, A. V. Sokolov, N. A. Zvezdina, Yu. N. Kurushin, B. M. Nekoshnov, and V. S. Chudakov. 19, 325 (1965) [19, 586 (1965)]
NEPORENT, B. S.
Measurement of the Moisture of Gas Mixtures by Infrared Absorption Spectra. II. Determination of the Vertical Distribution of Water Vapor in the Atmosphere from High-Altitude Measurements of the Solar Spectrum—M. S. Kiseleva and B. S. Neporent. 19, 513 (1965) [19, 923 (1965)]
On the Effect of Light Gases on the Abosrption of Light by the Vapors of Aromatic Compounds—Yu. T. Mazurenko and B. S. Neporent. 19, 550 (1965) [19, 985 (1965)]
NIKOLSKII, I. K.
Bremsstrahlung in the Infrared Region from the Plasma of the Electrodeless Induction Discharge—L. A. Dushin, V. I. Kononenko, O. S. Pavlichenko, and I. K. Nikolskii. 19, 378 (1965) [19, 674 (1965)]
NIKITIN, E. E.
Nonadiabatic Transitions between the Fine-Structure Components of Alkali Metal Atoms during Atomic Collisions—E. E. Nikitin. 19, 91 (1965) [19, 161 (1965)]
NORMAN, G. E.
On the Application of the Coulomb Approximation to the Calculation of Transition Probabilities—G. E. Norman. 19, 369 (1965) [19, 657 (1965)] (2)
NOSENKO, B. M.
Determination of Certain Parameters of β-Particle Tracks in $CaSO_4$-Mn—B. M. Nosenko, L. S. Revzin, and V. Ya. Yaskolko. 19, 547 (1965) [19, 980 (1965)] (4)
NOVIKOV, L. N.
Optical Orientation of Hg^{201} Atoms Using the 1850 Å Line—L. N. Novikov and Ion M. Popesku. 19, 375 (1965) [19, 668 (1965)] (3)
NOVIKOV, M. M.
A New Study of the Emission Spectrum of the SrCl Molecule—M. M. Novikov and L. V. Gurvich. 19, 76 (1965) [19, 143 (1965)] (3)
OCHKUR, V. I.
On the Treatment of Exchange in the Problems of the Theory of Electron-Atom Collisions—V. I. Ochkur. 19, 258 (1965) [19, 461 (1965)] (2)
Exchange Excitation of Helium by Electron Impact—V. I. Ochkur and V. F. Brattsev. 19, 274 (1965) [19, 490 (1965)] (3)
ODINTSOV, A. I.
A Study of Certain Characteristics of a Helium-Neon Laser—F. A. Korolev, A. I. Odintsov, and V. N. Mitsai. 19, 36 (1965) [19, 71 (1965)] (4)
OKSMAN, Ya. A.
High-Frequency Electroluminescence of Semiconducting Crystals—Ya. A. Oksman and V. N. Smirnov. 19, 80 (1965) [19, 149 (1965)] (3)
High-Frequency Electroluminescence of Polycrystalline Boron Phosphide—B. V. Baranov, Ya. A. Oksman, B. D. Prochukhan, and V. N. Smirnov. 19, 553 (1965) [19, 987 (1965)] (5)
ORLOV, B. I.
Calculation of the Optical Polarizability of the Hydrogen Atom with the Use of a Power Series—M. N. Adamov, V. K. Kagan, and B. I. Orlov. 19, 171 (1965) [19, 300 (1965)] (4)
ORLOVA, I. N.
Measurement of the Probability of Spontaneous Radiation from Nitrous Oxide Molecules in the Region 2.9 μ and 3.9 μ—I. N. Orlova. 19, 381 (1965) [19, 680 (1965)] (2)
ORLOVA, N. D.
Infrared Absorption Band Shapes and the Rotational Motion of Molecules in Liquids. Hydrogen Halide Solutions—M. O. Bulanin, N. D. Orlova, and D. N. Shchepkin. 19, 406 (1965) [19, 731 (1965)] (4)
OSTROUMENKO, P. P.
Measurement of Relative Oscillator Strengths in the Copper Atom Spectrum by the Linear Absorption Method—P. P. Ostroumenko and V. S. Rossikhin. 19, 365 (1965) [19, 653 (1965)] (3)
OVANDER, L. N.
Nonanalytical Character of the Coulomb Exciton Energy and Peculiarities of Resonance Raman Scattering—L. N. Ovander. 19, 355 (1965) [19, 638 (1965)] (2)
OVCHARENKO, I. E.
Concerning the Vibrational Constants and Dissociation Energy of the CCl Molecule—I. E. Ovcharenko, Yu. Ya. Kuzyakov, and V. M. Tatevskii. 19, 294 (1965) [19, 528 (1965)] (4)

PAKHOMOVA, O. S.
Absorption of Light by α Oxygen in the Range 34,000-41,000 cm^{-1} at 4°K—A. F. Prikhotko and O. S. Pakhomova. 19, 509 (1965) [19, 916 (1965)]

PANCHENKO, Yu. N.
Calculation of the Frequencies and Forms of the Vibrations of Two Isotopic Forms of the 1,3-Butadiene Molecule, C_4H_6 and C_4D_6—G. S. Koptev, Yu. N. Panchenko, V. I. Tyulin, and V. M. Tatevskii. 19, 108 (1965) [19, 194 (1965)]

PANSHIN, O. A.
Three-Membered Ring Compounds. I. The Proton Magnetic Resonance Spectra and the Inversion of Nitrogen in N-Substituted Ethyleneimines—V. F. Bystrov, R. G. Kostyanovskii, O. A. Panshin, A. U. Stepanyants, and O. A. Iuzhakova. 19, 122 (1965) [19, 217 (1965)]

PASYNKOV, V. V.
Low-Voltage Electroluminescence of Evaporated ZnS-Cu, Mn, Cl Films in a dc Field—E. D. Golovkina, V. V. Pasynkov, and G. N. Khanina. 19, 158 (1965) [19, 281 (1965)]

PATSKO, A. I.
Polarization of the Fluorescence of Metalloporphyrins—G. P. Gurinovich, A. I. Patsko, K. N. Solovev, and S. F. Shkirman. 19, 134 (1965) [19, 239 (1965)]

PAVLICHENKO, O. S.
Bremsstrahlung in the Infrared Region from the Plasma of the Electrodeless Induction Discharge—L. A. Dushin, V. I. Kononenko, O. S. Pavlichenko, and I. K. Nikolskii. 19, 378 (1965) [19, 674 (1965)]

PERSONOV, R. I.
Quasi-Line Fluorescence and Absorption Spectra of Perilene at 20° and 4°K—M. M. Valdman and R. I. Personov. 19, 296 (1965) [19, 531 (1965)]

PETROV, A. K.
Comparative Study of the Vibrational Spectra of Some Aromatic Acids in the Gaseous and Condensed States—A. V. Sechkarev and A. K. Petrov. 19, 503 (1965) [19, 904 (1965)]

PETROV, I. P.
Photographic Method of Recording in Fourier Spectrometry—I. P. Petrov and B. N. Grechushnikov. 19, 82 (1965) [19, 151 (1965)]

PITERSKAYA, I. V.
Universal Molecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. X. An Investigation of the Absorption and Fluorescence Spectra of Phthalimide Derivatives over a Wide Range of Temperatures (20-300°C)—N. G. Bakhshiev and I. V. Piterskaya. 19, 390 (1965) [19, 698 (1965)]

PLYAVIN, I. K.
Spectroscopy of Some Activated Alkali-Halide Crystals Based on Kinetic Investigations of Intracenter Luminescence—M. F. Trinkler, I. K. Plyavin, B. Ya. Berzin, and A. K. Everte. 19, 213 (1965) [19, 378 (1965)]

POGORELOV, V. E.
Frequency Dependence of the Intensity of Fundamentals in Raman Spectra—I. I. Kondilenko and V. E. Pogorelov. 19, 20 (1965) [19, 41 (1965)]

POPESKU, Ion M.
Optical Orientation of Hg^{201} Atoms Using the 1850 Å Line—L. N. Novikov and Ion M. Popesku. 19, 375 (1965) [19, 668 (1965)]

POPOV, Yu. V.
Electro-Optic Effect in ZnSe Crystals—I. I. Adrianova, G. V. Dreiden, K. K. Dubenskii, Yu. V. Popov, and V. A. Sokolov. 19, 75 (1965) [19, 142 (1965)] (6)

Production of a Powerful Pulse of Radiation from a Ruby Laser Using an Ultrasonic Traveling-Wave Diffraction Modulator—I. I. Adrianova, Yu. V. Popov, and V. E. Terentev. 19, 176 (1965) [19, 307 (1965)] (4)

POPOVA, E. A.
Investigations of the Infrared Absorption Spectra of Antiferromagnetic Crystals with Hydrogen Bonds—A. I. Stekhanov, E. A. Popova, and Yu. F. Markov. 19, 323 (1965) [19, 583 (1965)] (4)

PRIKHOTKO, A. F.
Absorption of Light by α Oxygen in the Range 34,000-41,000 cm^{-1} at 4°K—A. F. Prikhotko and O. S. Pakhomova. 19, 509 (1965) [19, 916 (1965)] (3)

PROCHUKHAN, B. D.
High-Frequency Electroluminescence of Polycrystalline Boron Phosphide—B. V. Baranov, Ya. A. Oksman, B. D. Prochukhan, and V. N. Smirnov. 19, 553 (1965) [19, 987 (1965)] (5)

PROKOFEVA, N. I.
Calculation of Electrooptical Parameters and Absolute Intensities of the Infrared Bands of Cyclopropane and Deuterocyclopropane—N. I. Prokofeva and L. M. Sverdlov. 19, 363 (1965) [19, 650 (1965)] (3)

PROSKURA, A. I.
Three Types of Gudden-Pohl Effect and the Phosphorescence of Copper-Activated Zinc Sulfide—A. G. Goldman, A. I. Proskura, and S. F. Lysenko. 19, 524 (1965) [19, 943 (1965)] (4)

PROTOPOPOVA, N. G.
Stark Effect for the Rotational Levels of Molecules in Strong Fields—A. V. Gaponov, Yu. N. Demkov, N. G. Protopopova, and V. M. Fain. 19, 279 (1965) [19, 501 (1965)] (5)

PRZHEVUSKII, A. K.
Deformation Splitting and Enhancement of Spectral Lines and the Structure of Excited Levels of Eu^{2+} in Alkali-Earth Fluoride Crystals—A. A. Kaplyanskii and A. K. Przhevuskii. 19, 331 (1965) [19, 597 (1965)] (3)

RABIK, L. L.
Excitation of Neon Atoms by Electron Impact—V. Ya. Veldre, A. V. Lyash, and L. L. Rabik. 19, 182 (1965) [19, 319 (1965)] (4)

The Calculation of Born Excitation Cross Sections of Excited Hydrogen Atoms—V. Ya. Veldre and L. L. Rabik. 19, 265 (1965) [19, 474 (1965)] (3)

RATNER, A. M.
On the Threshold Power of a Laser with Disturbed Optical Adjustment—I. A. Rom-Krichevskaya, A. M. Ratner, and A. V. Meshcheryakov. 19, 149 (1965) [19, 264 (1965)] (4)

RAZUMOVA, T. K.
The Wavelength Dependence of the Duration of Luminescence within the Limits of the Luminescence Line Contour at a High Excitation Level—A. M. Bonch-Bruevich and T. K. Razumova. 19, 358 (1965) [19, 643 (1965)] (3)

REBANE, T. K.
Perturbation Theory in the Hartree-Fok Method—T. K. Rebane. 19, 179 (1965) [19, 313 (1965)] (2)

REVZIN, L. S.
Determination of Certain Parameters of β-Particle Tracks in $CaSO_4$-Mn—B. M. Nosenko, L. S. Revzin, and V. Ya. Yaskolko. 19, 547 (1965) [19, 980 (1965)]
REZAEV, N. I.
Effect of Molecular Interactions on the Profiles of the Raman Lines of Dioxane in Solutions—N. I. Rezaev and K. Shchepanyak. 19, 409 (1965) [19, 738 (1965)]
RIGINA, I. V.
Application of the Lagrange Equations with Nonvanishing Couplings for Setting Up the Theory of Molecular Vibrations in Dependent Coordinates—I. N. Godnev, A. A. Zaitsev, and I. V. Rigina. 19, 486 (1965) [19, 874 (1965)]
ROM-KRICHEVSKAYA, I. A.
On the Threshold Power of a Laser with Disturbed Optical Adjustment—I. A. Rom-Krichevskaya, A. M. Ratner, and A. V. Meshcheryakov. 19, 149 (1965) [19, 264 (1965)]
ROSINSKII, K.
Theoretical Studies of Phenomena Associated with Level Crossing in Na^{23} and Rb^{85}—Yu. Kapelevskii and K. Rosinskii. 19, 70 (1965) [19, 135 (1965)]
ROSSIKHIN, V. S.
New Bands in the Swan System of the C_2 Molecule—E. D. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 19, 292 (1965) [19, 524 (1965)]
Measurement of Relative Oscillator Strengths in the Copper Atom Spectrum by the Linear Absorption Method—P. P. Ostroumenko and V. S. Rossikhin. 19, 365 (1965) [19, 653 (1965)]
RUNKOV, O. V.
The Excitation and Characteristics of the Thorium Spectrum in Electrodeless Discharge Tubes—V. N. Egorov and O. V. Runkov. 19, 284 (1965) [19, 511 (1965)]
RUSANOV, I. B.
Group-Theoretical Analysis of the Zeeman Effect in the Optical Spectra of Cubic Crystals—B. P. Zakharchenya and I. B. Rusanov. 19, 207 (1965) [19, 365 (1965)]
RVACHEVA, E. S.
Stimulated Emission of Praseodymium in Calcium Tungstate—V. L. Bakumenko, G. S. Kozina, T. A. Kostinskaya, E. P. Lupachev, and E. S. Rvacheva. 19, 68 (1965) [19 132 (1965)]
RYAZANOV, A. N.
Multiple-Beam Interference in a Wedge—V. K. Miloslavskii and A. N. Ryazanov. 19, 437 (1965) [19, 792 (1965)]
RYSKIN, A. I.
Luminescence and Absorption Associated with the Lower Terms of Co^{2+} and Ni^{2+} Ions in Single Crystals of ZnS—K. K. Dubenskii, Ya. E. Kariss, A. I. Ryskin, P. P. Feofilov, and G. I. Khilko. 19, 353 (1965) [19, 635 (1965)]
SARAKHANOV, M. A.
Vibrational Frequencies of Coordinated Hydroxylamine—Yu. Ya. Kharitonov, M. A. Sarakhanov, I. B. Baranovskii, and Kh. U. Ikramov. 19, 257 (1965) [19, 460 (1965)]
SAVIN, F. A.
On the Intensity of Vibrational Raman Lines of Molecules—F. A. Savin. 19, 308 (1965) [19, 555 (1965)]
Intensities in Raman Spectra and the Metal Model of the Molecule. IV. Raman Scattering near the Absorption Band of Certain Aromatic Molecules—F. A. Savin. 19, 412 (1965) [19, 743 (1965)]
SAVINOV, E. P.
Reflection of X Rays with Wavelengths from 23.6 to 190.3 Å. (6)
Some Remarks on the Performance of Diffraction Gratings—A. P. Lukirskii, E. P. Savinov, O. A. Ershov, I. I. Zhukova, and V. A. Fomichev. 19, 237 (1965) [19, 425 (1965)] (6)
SAVITSKII, A. V.
Optical Properties of Zinc Telluride. I. Fundamental Absorption Edge—A. V. Savitskii, M. V. Kurik, and K. D. Tovstyuk. 19, 59 (1965) [19, 115 (1965)] (4)
SECHKARYOV, A. V.
On a Possible Cause of the Shift and Broadening of the Vibrational Lines of Polar Organic Compounds without Hydrogen Bonds—A. V. Sechkaryov. 19, 401 (1965) [19, 721 (1965)] (2)
Comparative Study of the Vibrational Spectra of Some Aromatic Acids in the Gaseous and Condensed States—A. V. Sechkarev and A. K. Petrov. 19, 503 (1965) [19, 904 (1965)] (3)
SEMENOV, R. I.
g Factors of the Excited Levels of the Potassium Ion—R. I. Semenov. 19, 552 (1965) [19, 986 (1965)] (2)
SEMILETOV, S. A.
Optical Properties of Polycrystalline InSb Films—S. A. Semiletov, P. S. Agalarzade, and E. M. Kortukova. 19, 142 (1965) [19, 252 (1965)] (4)
SERGEEV, V. P.
The Use of Moiré Interference Fringes to Control the Ruling of Diffraction Gratings—F. M. Gerasimov, V. P. Sergeev, I. A. Teltevskii, V. V. Sergeev, and B. V. Marichev. 19, 152 (1965) [19, 270 (1965)] (6)
SERGEEV, V. V.
The Use of Moiré Interference Fringes to Control the Ruling of Diffraction Gratings—F. M. Gerasimov, V. P. Sergeev, I. A. Teltevskii, V. V. Sergeev, and B. V. Marichev. 19, 152 (1965) [19, 270 (1965)] (6)
SEVASTYANENKO, V. G.
Radiative Gas Cooling Behind Shock Waves—V. G. Sevastyanenko and I. T. Yakubov. 19, 286 (1965) [19, 515 (1965)] (3)
SHABLYA, A. V.
A Study of Photochromic Transformations in Spiropyrane Solutions Using the Luminescence Method—G. I. Lashkov and A. V. Shablya. 19, 455 (1965) [19, 821 (1965)] (3)
SHAIKEVICH, I. A.
Optical Properties of Ni-Cu Alloys in the Visible Region of the Spectrum—N. Ya. Gorban and I. A. Shaikevich. 19, 69 (1965) [19, 133 (1965)] (3)
SHAKHNOVICH, M. I.
Effect of Self-Shadowing on the Coefficient of Reflection from the Cleaved Surface of a Monocrystal—I. S. Zhitomirskii, T. S. Chebanova, and M. I. Shakhnovich. 19, 229 (1965) [19, 409 (1965)] (4)
SHAKHVERDOV, P. A.
Triplet-Triplet Absorption Spectra of Some Tetrapyrrole Pigments in Liquid Solution—P. A. Shakhverdov. 19, 519 (1965) [19, 933 (1965)] (2)
SHALIMOVA, K. V.
Narrow Line Spectra of ZnS Single Crystals with Packing Faults—K. V. Shalimova and N. K. Morozova. 19, 522 (1965) [19, 939 (1965)] (3)

SHAMOVSKII, L. M.
Study of Optical and Thermal De-Excitation of the NaCl(Cu) Phosphor—L. M. Shamovskii and V. F. Kosikhin. 19, 52 (1965) [19, 102 (1965)]
Growth of the Initial Intensity of X-Ray Luminescence in Alkali-Halide Phosphors under Repeated Excitations—L. M. Shamovskii and A. A. Dunina. 19, 429 (1965) [19, 776 (1965)]
SHCHEPANYAK, K.
Effect of Molecular Interactions on the Profiles of the Raman Lines of Dioxane in Solutions—N. I. Rezaev and K. Shchepanyak. 19, 409 (1965) [19, 738 (1965)]
SHCHEPKIN, D. N.
Infrared Spectra and Intermolecular Interaction in Hydrogen Halide Solutions. Weak Interactions—D. N. Shchepkin. 19, 395 (1965) [19, 709 (1965)]
Infrared Absorption Band Shapes and the Rotational Motion of Molecules in Liquids. Hydrogen Halide Solutions—M. O. Bulanin, N. D. Orlova, and D. N. Shchepkin. 19, 406 (1965) [19, 731 (1965)]
SHIGORIN, D. N.
Electro-Optical Parameters of the ≡C-Ge, ≡C-H, ≡C-Si Bonds of Some Acetylene Derivatives Containing One and Several Acetylene Groups—E. A. Gastilovich, D. N. Shigorin, N. V. Komarov, and O. G. Yarosh. 19, 162 (1965) [19, 287 (1965)]
Estimation of the Electrooptical Parameters of Some Acetylene Derivatives by the Infrared Spectra Method—E. A. Gastilovich, D. N. Shigorin, and N. V. Komarov. 19, 201 (1965) [19, 354 (1965)]
SHIMON, L. L.
The Effective Excitation Cross Sections of Alkali-Metal Atoms Colliding with Slow Electrons. I. Sodium—I. P. Zapesochnyi and L. L. Shimon. 19, 268 (1965) [19, 480 (1965)]
Effective Excitation Cross Sections of Alkali Metal Atoms Colliding with Slow Electrons. II. Potassium—I. P. Zapesochnyi, L. L. Shimon, and A. K. Soshnikov. 19, 480 (1965) [19, 864 (1965)]
SHIROKOV, V. I.
Fluorometric Study of the Effect of Solvent on the Fluorescence Spectrum of 3-Amino-N-Methylphthalimide—T. V. Veselova, L. A. Limareva, A. S. Cherkasov, and V. I. Shirokov. 19, 39 (1965) [19, 78 (1965)]
SHKIRMAN, S. F.
Polarization of the Fluorescence of Metalloporphyrins—G. P. Gurinovich, A. I. Patsko, K. N. Solovev, and S. F. Shkirman. 19, 134 (1965) [19, 239 (1965)]
SHKLYAREVSKII, I. N.
Wide-Angle Interference of Light—I. N. Shklyarevskii and V. I. Goloyadova. 19, 165 (1965) [19, 292 (1965)]
SHORYGIN, P. P.
On the Theory of the Radiative Width of Spectral Lines—V. A. Morozov and P. P. Shorygin. 19, 164 (1965) [19, 289 (1965)]
On the Theory of the Intensities of Raman Lines. VI. On the Agreement of the Results of the Quantum and Classical Theories—L. L. Krushinskii and P. P. Shorygin. 19, 312 (1965) [19, 562 (1965)]
SHUKHTIN, A. M.
Method of Processing Hook Interferograms—A. M. Shukhtin. 19, 457 (1965) [19, 824 (1965)]
SHULMAN, L. A.
On the Temperature Dependence of the Width and Shape of EPR Absorption Curves of Local Centers in Crystals with Hyperfine Interaction—L. A. Shulman. 19, 427 (1965) [19, 771 (1965)] (2)
SIDOROV, N. K.
Principal Parameters of the Raman Lines of the Monohalogenobenzenes and Their Variation with Temperature and Solvent—N. K. Sidorov, L. I. Bratanova, and L. S. Stalmakhova. 19, 116 (1965) [19, 206 (1965)] (4)
SILIN, Yu. A.
Absolute Intensities of Thallium Spectral Lines in Sensitized Fluorescence of Mercury and Thallium Vapors—E. K. Kraulinya, A. E. Lezdin, and Yu. A. Silin. 19, 84 (1965) [19, 154 (1965)] (4)
SKRIPOV, V. P.
Light Scattering in the Vicinity of the Critical Liquid-Vapor Point. I. Apparatus. Experiments with Carbon Dioxide and Sulfur Hexafluoride—V. P. Skripov and Yu. D. Kolpakov. 19, 220 (1965) [19, 392 (1965)] (3)
Light Scattering in the Vicinity of the Critical Liquid-Vapor Point. II. Breakdown of the Rayleigh Scattering Law—Yu. D. Kolpakov and V. P. Skripov. 19, 342 (1965) [19, 616 (1965)] (3)
Determination of the Correlation Distance Near the Critical Point by the Scattering of Light—V. P. Skripov and Yu. D. Kolpakov. 19, 360 (1965) [19, 645 (1965)] (3)
SMIRNOV, V. N.
High-Frequency Electroluminescence of Semiconducting Crystals—Ya. A. Oksman and V. N. Smirnov. 19, 80 (1965) [19, 149 (1965)] (3)
High-Frequency Electroluminescence of Polycrystalline Boron Phosphide—B. V. Baranov, Ya. A. Oksman, B. D. Prochukhan, and V. N. Smirnov. 19, 553 (1965) [19, 987 (1965)] (5)
SMORCHKOV, V. N.
Luminescence and Absorption of Excited Ruby—M. D. Galanin, V. N. Smorchkov, and Z. A. Chizhikova. 19, 168 (1965) [19, 296 (1965)] (4)
SOBOLEV, N. N.
Thermal Excitation of the Spectrum of Molecular Nitrogen—E. B. Brusyanova, V. N. Kolesnikov, and N. N. Sobolev. 19, 453 (1965) [19, 819 (1965)] (4)
SOBOLEV, V. V.
Edge Luminescence of CdS, CdSe, and CdTe Crystals—V. V. Sobolev. 19, 43 (1965) [19, 86 (1965)] (2)
SOKOLOV, A. V.
On the Determination of the Energy Spectrum of an Impurity Ion with an Unfilled d Shell in a Crystal—A. N. Men, A. V. Sokolov, N. A. Zvezdina, Yu. N. Kurushin, B. M. Nekoshnov, and V. S. Chudakov. 19, 325 (1965) [19, 586 (1965)] (7)
SOKOLOV, V. A.
Thermal Afterglow and Thermostimulated Current in TlCl Single Crystals—V. A. Sokolov and N. A. Tolstoi. 19, 49 (1965) [19, 97 (1965)] (3)
Electro-Optic Effect in ZnSe Crystals—I. I. Adrianova, G. V. Dreiden, K. K. Dubenskii, Yu. V. Popov, and V. A. Sokolov. 19, 75 (1965) [19, 142 (1965)] (6)
SOLOVEV, K. N.
Polarization of the Fluorescence of Metalloporphyrins—G. P. Gurinovich, A. I. Patsko, K. N. Solovev, and S. F. Shkirman. 19, 134 (1965) [19, 239 (1965)] (5)

SOROKIN, V. N.
Broadening of Emission Lines of Thallium by Molecular Hydrogen—V. A. Dudkin, T. L. Andreeva, V. I. Malyshev, and V. N. Sorokin. 19, 99 (1965) [19, 177 (1965)]

SOSHNIKOV, A. K.
Effective Excitation Cross Sections of Alkali Metal Atoms Colliding with Slow Electrons. II. Potassium—I. P. Zapesochnyi, L. L. Shimon, and A. K. Soshnikov. 19, 480 (1965) [19, 864 (1965)]

SOSINSKII, M. L.
Determination of the Effective Cross Section for Second-Order Collisions of Mercury and Zinc Atoms—M. L. Sosinskii and E. N. Morosov. 19, 352 (1965) [19, 634 (1965)]

SOTSKII, B. A.
On the Possibility of Determining the Coherence Function by Observing Diffraction—B. A. Sotskii. 19, 73 (1965) [19, 138 (1965)]
On the Relationship between the Radiation Coherence and the Number of Modes of a Laser—B. A. Sotskii and A. M. Goncharenko. 19, 435 (1965) [19, 788 (1965)]

SPARTAKOV, A. A.
Electrooptic Effect in a Rotating Electric Field and the Rigid Electric Dipole Moment of Colloidal Particles—N. A. Tolstoi, A. A. Spartakov, and A. A. Trusov. 19, 458 (1965) [19, 826 (1965)]

STALMAKHOVA, L. S.
Principal Parameters of the Raman Lines of the Monohalogenobenzenes and Their Variation with Temperature and Solvent—N. K. Sidorov, L. I. Bratanova, and L. S. Stalmakhova. 19, 116 (1965) [19, 206 (1965)]

STAROSTIN, A. N.
The Relationship Between the Probabilities of Second-Order Radiation Processes in Perturbation Theory—L. M. Biberman, A. Kh. Mnatsakanyan, and A. N. Starostin. 19, 272 (1965) [19, 487 (1965)]

STARUNOV, V. A.
Width and Shape of Depolarized Raman Lines and the Wing of the Rayleigh Line in Liquids—G. I. Zaitsev and V. S. Starunov. 19, 497 (1965) [19, 893 (1965)]

STEKHANOV, A. I.
Investigations of the Infrared Absorption Spectra of Antiferromagnetic Crystals with Hydrogen Bonds—A. I. Stekhanov, E. A. Popova, and Yu. F. Markov. 19, 323 (1965) [19, 583 (1965)]

STEPANYANTS, A. U.
Three-Membered Ring Compounds. I. The Proton Magnetic Resonance Spectra and the Inversion of Nitrogen in N-Substituted Ethyleneimines—V. F. Bystrov, R. G. Kostyanovskii, O. A. Panshin, A. U. Stepanyants, and O. A. Iuzhakova. 19, 122 (1965) [19, 217 (1965)]

STERIN, Kh. E.
Infrared Absorption Spectra of Cyclohexane and of Its Symmetrically Substituted Derivatives at Low Temperatures—G. N. Zhizhin and Kh. E. Sterin. 19, 28 (1965) [19, 55 (1965)]

STRIGANOV, A. R.
Isotope Shift and Deformations of Ytterbium Nuclei—A. F. Golovin and A. R. Striganov. 19, 467 (1965) [19, 837 (1965)]

SUBBOTIN, S. I.
On the D_{JK} Value for the Cyclopentene Molecule C_5H_8—S. I. Subbotin, V. I. Tyulin, D. I. Katayev, and V. M. Tatevskii. 19, 361 (1965) [19, 647 (1965)]

SVERDLOV, I. M.
Experimental and Theoretical Study of Absolute Intensities in the Infrared Spectra of Gaseous Hydrocarbons. II. Propylene and Isobutylene—A. G. Finkel, M. G. Borisov, and I. M. Sverdlov. 19, 33 (1965) [19, 65 (1965)] (4)

SVERDLOV, L. M.
Calculation of Electrooptical Parameters and Absolute Intensities of the Infrared Bands of Cyclopropane and Deuterocyclopropane—N. I. Prokofeva and L. M. Sverdlov. 19, 363 (1965) [19, 650 (1965)] (3)

TATEVSKII, V. M.
Calculation of the Frequencies and Forms of the Vibrations of Two Isotopic Forms of the 1,3-Butadiene Molecule, C_4H_6 and C_4D_6—G. S. Koptev, Yu. N. Panchenko, V. I. Tyulin, and V. M. Tatevskii. 19, 108 (1965) [19, 194 (1965)] (5)
Concerning the Vibrational Constants and Dissociation Energy of the CCl Molecule—I. E. Ovcharenko, Yu. Ya. Kuzyakov, and V. M. Tatevskii. 19, 294 (1965) [19, 528 (1965)] (4)
On the D_{JK} Value for the Cyclopentene Molecule C_5H_8—S. I. Subbotin, V. I. Tyulin, D. I. Katayev, and V. M. Tatevskii. 19, 361 (1965) [19, 647 (1965)] (5)

TELTEVSKII, I. A.
The Use of Moiré Interference Fringes to Control the Ruling of Diffraction Gratings—F. M. Gerasimov, V. P. Sergeev, I. A. Teltevskii, V. V. Sergeev, and B. V. Marichev. 19, 152 (1965) [19, 270 (1965)] (6)

TERENTEV, V. E.
Production of a Powerful Pulse of Radiation from a Ruby Laser Using an Ultrasonic Traveling-Wave Diffraction Modulator—I. I. Adrianova, Yu. V. Popov, and V. E. Terentev. 19, 176 (1965) [19, 307 (1965)] (4)

TERPILOVSKII, D. N.
Duration of Afterglow in Aqueous Solutions of Gadolinium Salts—D. N. Terpilovskii. 19, 520 (1965) [19, 936 (1965)] (2)

TIBILOZ, A. S.
Generation of Radiation in He-Cd and Ne-Cd Mixtures—A. S. Tibiloz. 19, 463 (1965) [19, 833 (1965)] (2)

TIMOFEEVA, V. A.
On the Luminescence of Neodymium and Chromium in Yttrium Aluminum Garnet—P. P. Feofilov, V. A. Timofeeva, M. N. Tolstoi, and L. M. Belyaev. 19, 451 (1965) [19, 817 (1965)] (5)

TOLKACHEV, V. A.
Characteristic Times for Fluorescence of Rarified Vapors of Complex Molecules—V. A. Tolkachev. 19, 387 (1965) [19, 692 (1965)] (2)

TOLSTOI, M. N.
On the Removal of Degeneracy of the Levels of Cubic Activator Centers in Mixed Crystals of the Fluorite Type—M. N. Tolstoi and P. P. Feofilov. 19, 448 (1965) [19, 812 (1965)] (3)
On the Luminescence of Neodymium and Chromium in Yttrium Aluminum Garnet—P. P. Feofilov, V. A. Timofeeva, M. N. Tolstoi, and L. M. Belyaev. 19, 451 (1965) [19, 817 (1965)] (5)

TOLSTOI, N. A.
Thermal Afterglow and Thermostimulated Current in TlCl Single Crystals—V. A. Sokolov and N. A. Tolstoi. 19, 49 (1965) [19, 97 (1965)] (3)

Electrooptic Effect in a Rotating Electric Field and the Rigid Electric Dipole Moment of Colloidal Particles—N. A. Tolstoi, A. A. Spartakov, and A. A. Trusov. 19, 458 (1965) [19, 826 (1965)]

Nonlinear Quenching of Luminescence of Manganous Chloride Due to Increased Intensity of Excitation—N. A. Tolstoi and A. P. Abramov. 19, 461 (1965) [19, 830 (1965)]

TOVSTYUK, K. D.

Optical Properties of Zinc Telluride. I. Fundamental Absorption Edge—A. V. Savitskii, M. V. Kurik, and K. D. Tovstyuk. 19, 59 (1965) [19, 115 (1965)]

TRINKLER, M. F.

Spectroscopy of Some Activated Alkali-Halide Crystals Based on Kinetic Investigations of Intracenter Luminescence—M. F. Trinkler, I. K. Plyavin, B. Ya. Berzin, and A. K. Everte. 19, 213 (1965) [19, 378 (1965)]

TRUSOV, A. A.

Electrooptic Effect in a Rotating Electric Field and the Rigid Electric Dipole Moment of Colloidal Particles—N. A. Tolstoi, A. A. Spartakov, and A. A. Trusov. 19, 458 (1965) [19, 826 (1965)]

TSAUNE, A. Ya.

On the Use of Effective Kinematic Coefficients to Take Account of Anharmonicity in Molecular Vibrations—A. Ya. Tsaune and V. P. Morozov. 19, 104 (1965) [19, 186 (1965)]

TSIKORA, I. L.

New Bands in the Swan System of the C_2 Molecule—E. D. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 19, 292 (1965) [19, 524 (1965)]

TSIRLIN, Yu. A.

Some Trapping Centers in NaI(Tl) Crystals—Z. B. Baturicheva, N. Yu. Gurevich, and Yu. A. Tsirlin. 19, 136 (1965) [19, 242 (1965)]

TVOROGOV, S. D.

Conference on the Spectral Transmittance of the Atmosphere—V. E. Zuev and S. D. Tvorogov. 19, 557 (1965) [19, 994 (1965)]

TYULIN, V. I.

Calculation of the Frequencies and Forms of the Vibrations of Two Isotopic Forms of the 1,3-Butadiene Molecule, C_4H_6 and C_4D_6—G. S. Koptev, Yu. N. Panchenko, V. I. Tyulin, and V. M. Tatevskii. 19, 108 (1965) [19, 194 (1965)]

On the $D_{\infty k}$ Value for the Cyclopentene Molecule C_5H_8—S. I. Subbotin, V. I. Tyulin, D. I. Katayev, and V. M. Tatevskii. 19, 361 (1965) [19, 647 (1965)]

VALDMAN, M. M.

Quasi-Line Fluorescence and Absorption Spectra of Perilene at 20° and 4° K—M. M. Valdman and R. I. Personov. 19, 296 (1965) [19, 531 (1965)]

VALEEV, A. S.

Optical Properties of Thermally Deposited Antimony Trisulfide and Tellurium Layers in the Infrared Spectral Region—A. S. Valeev and M. A. Gisin. 19, 62 (1965) [19, 121 (1965)]

VALIEV, K. A.

Theory of the Shape and Width of Depolarized Lines in the Raman Spectra of Molecular Crystals—E. E. Ivanov and K. A. Valiev. 19, 499 (1965) [19, 897 (1965)]

VANYUKOV, M. P.

Effect of Mirror Misalignment on the Losses in a Fabry-Perot Resonator—M. P. Vanyukov, V. I. Isaenko, V. P. Kalinin, and V. V. Lyubimov. 19, 161 (1965) [19, 286 (1965)]

VELDRE, V. Ya.

Excitation of Neon Atoms by Electron Impact—V. Ya. Veldre, A. V. Lyash, and L. L. Rabik. 19, 182 (1965) [19, 319 (1965)] (4)

The Calculation of Born Excitation Cross Sections of Excited Hydrogen Atoms—V. Ya. Veldre and L. L. Rabik. 19, 265 (1965) [19, 474 (1965)] (3)

VESELOVA, T. V.

Fluorometric Study of the Effect of Solvent on the Fluorescence Spectrum of 3-Amino-N-Methylphthalimide—T. V. Veselova, L. A. Limareva, A. S. Cherkasov, and V. I. Shirokov. 19, 39 (1965) [19, 78 (1965)] (5)

VITRIKHOVSKII, N. I.

Indirect Transitions in the CdS Crystal—M. S. Brodin, N. I. Vitrikhovskii, and M. V. Kurik. 19, 247 (1965) [19, 444 (1965)] (4)

VOLODKO, L. V.

Luminescence Spectra and the Structure of Hydrated Uranyl Nitrates—L. V. Volodko. 19, 416 (1965) [19, 751 (1965)] (2)

VOROBYEV, V. S.

Radiation Transfer in an Ionization Continuum—L. M. Biberman, V. S. Vorobyev, and A. N. Lagarkov. 19, 186 (1965) [19, 326 (1965)] (4)

WITZMANN, H.

The Fluorescence of Rare Earths. III. Emission Spectra of Samarium in Fluorite-Type Phases and in Multi-Type Mixed Phases—H. K. Muller-Buschbaum and H. Witzmann. 19, 420 (1965) [19, 759 (1965)] (3)

YAKOB, Z. G.

Study of Absorption in the Channel of High-Pressure Pulse Discharge—F. A. Charnaya and Z. G. Yakob. 19, 101 (1965) [19, 181 (1965)] (3)

YAKOVLEV, E. A.

Calculation of Distribution of Intensities by a Diffraction Grating in Polarized Light—E. A. Yakovlev. 19, 233 (1965) [19, 417 (1965)] (2)

YAKUBOV, I. T.

Effect of Radiation on the State of the Gas During Passage of a Shock Wave in Hydrogen—I. T. Yakubov. 19, 12 (1965) [19, 26 (1965)] (2)

Energy Emitted by Argon Plasma in Spectral Lines—I. T. Yakubov. 19, 277 (1965) [19, 497 (1965)] (2)

Radiative Gas Cooling Behind Shock Waves—V. G. Sevastyanenko and I. T. Yakubov. 19, 286 (1965) [19, 515 (1965)] (3)

YAROSH, O. G.

Electro-Optical Parameters of the ≡C-Ge, ≡C-H, ≡C-Si Bonds of Some Acetylene Derivatives Containing One and Several Acetylene Groups—E. A. Gastilovich, D. N. Shigorin, N. V. Komarov, and O. G. Yarosh. 19, 162 (1965) [19, 287 (1965)] (5)

YASKOLKO, V. Ya.

Determination of Certain Parameters of β-Particle Tracks in $CaSO_4$-Mn—B. M. Nosenko, L. S. Revzin, and V. Ya. Yaskolko. 19, 547 (1965) [19, 980 (1965)] (4)

YULMETEV, R. M.

Theory of Rayleigh Scattering of Light in Liquids—R. M. Yulmetev. 19, 532 (1965) [19, 956 (1965)] (2)

ZABIYAKIN, Yu. E.

Quantitative Study of the Absorption and Dispersion of $CHCl_3$ and CCl_4 Solutions in the Region of Strong Infrared Absorption Bands—V. S. Libov and Yu. E. Zabiyakin. 19, 303 (1965) [19, 544 (1965)] (3)

ZADOROZHNYI, B. A.
Hydrogen Bond Energies and Shifts of the Stretching Vibration Bands of C=O Groups—B. A. Zadorozhnyi and I. K. Ishchenko. 19, 306 (1965) [19, 551 (1965)]
ZAITSEV, A. A.
Application of the Lagrange Equations with Nonvanishing Couplings for Setting Up the Theory of Molecular Vibrations in Dependent Coordinates—I. N. Godnev, A. A. Zaitsev, and I. V. Rigina. 19, 486 (1965) [19, 874 (1965)]
ZAITSEV, G. I.
Width and Shape of Depolarized Raman Lines and the Wing of the Rayleigh Line in Liquids—G. I. Zaitsev and V. S. Starunov. 19, 497 (1965) [19, 893 (1965)]
ZAKHARCHENYA, B. P.
Group-Theoretical Analysis of the Zeeman Effect in the Optical Spectra of Cubic Crystals—B. P. Zakharchenya and I. B. Rusanov. 19, 207 (1965) [19, 365 (1965)]
ZAKHAROVA, V. M.
Concerning the Rotation of the Positive Column of the Discharge in a Magnetic Field—V. M. Zakharova and Yu. M. Kagan. 19, 74 (1965) [19, 140 (1965)]
ZAKHARKO, Ya. M.
The Scintillation Excitation Mechanism in Thallium-Activated Sodium Iodide—Ya. M. Zakharko and V. V. Chepelev. 19, 462 (1965) [19, 831 (1965)]
ZAPESOCHNYI, I. P.
The Effective Excitation Cross Sections of Alkali-Metal Atoms Colliding with Slow Electrons. I. Sodium—I. P. Zapesochnyi and L. L. Shimon. 19, 268 (1965) [19, 480 (1965)]
Effective Excitation Cross Sections of Alkali Metal Atoms Colliding with Slow Electrons. II. Potassium—I. P. Zapesochnyi, L. L. Shimon, and A. K. Soshnikov. 19, 480 (1965) [19, 864 (1965)]
ZEIGER, S. G.
Structure of the Radiation Field of a Gas Laser with Spherical Mirrors—S. G. Zeiger, N. I. Kaliteevskii, E. E. Fradkin, and M. P. Chaika. 19, 144 (1965) [19, 255 (1965)]
ZELIKIN, Ya. M.
On the Effect of Admixtures of Vanadium Pentoxide on the Luminescence of Zinc Oxide—S. L. Berdnikov and Ya. M. Zelikin. 19, 339 (1965) [19, 611 (1965)]
ZHIKHAREVA, T. V.
Resonance Phenomena in the Elastic Scattering of Electrons by Helium Atoms—T. V. Zhikhareva. 19, 474 (1965) [19, 851 (1965)]
ZHIRNOV, N. I.
The True Nature of the Rydberg-Klein-Rees Method—N. I. Zhirnov. 19, 2 (1965) [19, 6 (1965)]
Quasiclassical Wave Functions of the Morse Oscillator and Their Application to the Calculation of Franck-Condon Factors. III. Approximate Calculation of Franck-Condon Factors on an Electronic Computer—N. I. Zhirnov and L. A. Kronrod. 19, 484 (1965) [19, 871 (1965)]
On the Note by T. Tietz "Eigenfunctions and Eigenvalues of the Rotational-Vibrational States of Diatomic Molecules" —N. I. Zhirnov. 19, 554 (1965) [19, 990 (1965)]
ZHITOMIRSKII, I. S.
Effect of Self-Shadowing on the Coefficient of Reflection from the Cleaved Surface of a Monocrystal—I. S. Zhitomirskii, T. S. Chebanova, and M. I. Shakhnovich. 19, 229 (1965) [19, 409 (1965)] (4)
ZHIZHIN, G. N.
Infrared Absorption Spectra of Cyclohexane and of Its Symmetrically Substituted Derivatives at Low Temperatures—G. N. Zhizhin and Kh. E. Sterin. 19, 28 (1965) [19, 55 (1965)] (3)
ZHUKOV, A. G.
Optical Properties of CaF_2 in the Wavelength Range 170-600 μ—L. V. Berman and A. G. Zhukov. 19, 433 (1965) [19, 783 (1965)] (3)
ZHUKOV, G. V.
The Effect of Oxygen on the Spectrum of Electron Traps in Luminescent Zinc Sulfide—A. A. Bundel and G. V. Zhukov. 19, 139 (1965) [19, 247 (1965)] (3)
ZHUKOVA, I. I.
Reflection of X Rays with Wavelengths from 23.6 to 190.3 Å. Some Remarks on the Performance of Diffraction Gratings —A. P. Lukirskii, E. P. Savinov, O. A. Ershov, I. I. Zhukova, and V. A. Fomichev. 19, 237 (1965) [19, 425 (1965)] (6)
ZHUKOVSKII, A. P.
Luminescence of the NaCl-Pb Phosphor in the Neighborhood of 385 nm—A. P. Zhukovskii. 19, 259 (1965) [19, 463 (1965)] (2)
ZIMA, V. L.
Temperature Dependence of the Quantum Yields of Luminescence in Pure and Impurity-Admixed Crystals of Anthracene and Naphthalene—V. L. Zima and A. N. Faidysh. 19, 203 (1965) [19, 359 (1965)] (3)
ZOLOTAREV, V. M.
On the Choice of the Optimum Conditions for the Production of Spectra by the Frustrated Total Internal Reflection Method—V. M. Zolotarev and L. D. Kislovskii. 19, 346 (1965) [19, 623 (1965)] (3)
On the Possibilities of Studying Band Contours in Frustrated Total Internal Reflection Spectrophotometry—V. M. Zolotarev and L. D. Kislovskii. 19, 446 (1965) [19, 809 (1965)] (3)
ZONN, Z. N.
Luminescence of Chromium and Manganese Ions in Lanthanum Aluminate Crystals—Z. N. Zonn, V. A. Ioffe, and P. P. Feofilov. 19, 541 (1965) [19, 973 (1965)] (4)
ZUEV, V. E.
Conference on the Spectral Transmittance of the Atmosphere —V. E. Zuev and S. D. Tvorogov. 19, 557 (1965) [19, 994 (1965)] (3)
ZUEVA, G. Ya.
Experimental and Theoretical Study of Infrared Absorption Band Intensities in the Spectra of Some Organogermanium Compounds—S. V. Markova and G. Ya. Zueva. 19, 399 (1965) [19, 716 (1965)] (3)
ZVEZDINA, N. A.
On the Determination of the Energy Spectrum of an Impurity Ion with an Unfilled d Shell in a Crystal—A. N. Men, A. V. Sokolov, N. A. Zvezdina, Yu. N. Kurushin, B. M. Nekoshnov, and V. S. Chudakov. 19, 325 (1965) [19, 586 (1965)] (7)

TABLES OF CONTENTS

VOLUME XIX: JULY–DECEMBER

[Numbers in brackets refer to Russian original]

No. 1—July

Relativistic Radiation Transitions—F. A. Babushkin. 19, 1 (1965) [19, 3, (1965)]

The True Nature of the Rydberg-Klein-Rees Method—N. I. Zhirnov. 19, 2 (1965) [19, 6 (1965)]

The Polarization of Radiation Excited by Electron Impact V. L. Fedorov and A. P. Mezentsev. 19, 5 (1965) [19, 12 (1965)]

Spectroscopic Study of the Interaction Between Charged Particle Beams and Plasma—E. V. Lifshits. 19, 8 (1965) [19, 19 (1965)]

Effect of Radiation on the State of the Gas During Passage of a Shock Wave in Hydrogen—I. T. Yakubov. 19, 12 (1965) [19, 26 (1965)]

Reevaluation of the Spectroscopic Dissociation Energies of Subhalides of the IIa Group—K. S. Krasnov and N. V. Karaseva. 19, 14 (1965) [19, 30 (1965)]

On the Theory of Resonant Rotational Raman Scattering. II. Depolarization and Reversal Coefficients of Rotation-Vibration Lines—V. A. Morozov. 19, 17 (1965) [19, 35 (1965)]

Frequency Dependence of the Intensity of Fundamentals in Raman Spectra—I. I. Kondilenko and V. E. Pogorelov. 19, 20 (1965) [19, 41 (1965)]

Vibrational Spectra of 3,5-Lutidine and Their Interpretation K. C. Medhi. 19, 24 (1965) [19, 49 (1965)]

Infrared Absorption Spectra of Cyclohexane and of Its Symmetrically Substituted Derivatives at Low Temperatures—G. N. Zhizhin and Kh. E. Sterin. 19, 28 (1965) [19, 55 (1965)]

Experimental and Theoretical Study of Absolute Intensities in the Infrared Spectra of Gaseous Hydrocarbons. II. Propylene and Isobutylene—A. G. Finkel, M. G. Borisov, and I. M. Sverdlov. 19, 33 (1965) [19, 65 (1965)]

A Study of Certain Characteristics of a Helium-Neon Laser —F. A. Korolev, A. I. Odintsov, and V. N. Mitsai. 19, 36 (1965) [19, 71 (1965)]

Fluorometric Study of the Effect of Solvent on the Fluorescence Spectrum of 3-Amino-N-Methylphthalimide—T. V. Veselova, L. A. Limareva, A. S. Cherkasov, and V. I. Shirokov. 19, 39 (1965) [19, 78 (1965)]

Edge Luminescence of CdS, CdSe, and CdTe Crystals—V. V. Sobolev. 19, 43 (1965) [19, 86 (1965)]

Thermal Afterglow and Thermostimulated Current in TlCl Single Crystals—V. A. Sokolov and N. A. Tolstoi. 19, 49 (1965) [19, 97 (1965)]

Study of Optical and Thermal De-Excitation of the NaCl(Cu) Phosphor—L. M. Shamovskii and V. F. Kosikhin. 19, 52 (1965) [19, 102 (1965)]

Study of the Optical Properties of Tin Dioxide Thin Films in the Visible and Ultraviolet Regions—S. P. Lyashenko and V. K. Miloslavskii. 19, 55 (1965) [19, 108 (1965)]

Optical Properties of Zinc Telluride. I. Fundamental Absorption Edge—A. V. Savitskii, M. V. Kurik, and K. D. Tovstyuk. 19, 59 (1965) [19, 115 (1965)]

Optical Properties of Thermally Deposited Antimony Trisulfide and Tellurium Layers in the Infrared Spectral Region—A. S. Valeev and M. A. Gisin. 19, 62 (1965) [19, 121 (1965)] (3)

Possible Forms of Color Vision—N. V. Lobanova. 19, 66 (1965) [19, 128 (1965)] (2)

Stimulated Emission of Praseodymium in Calcium Tungstate—V. L. Bakumenko, G. S. Kozina, T. A. Kostinskaya, E. P. Lupachev, and E. S. Rvacheva. 19, 68 (1965) [19 132 (1965)] (6)

Optical Properties of Ni-Cu Alloys in the Visible Region of the Spectrum—N. Ya. Gorban and I. A. Shaikevich. 19, 69 (1965) [19, 133 (1965)] (3)

Theoretical Studies of Phenomena Associated with Level Crossing in Na^{23} and Rb^{85}—Yu. Kapelevskii and K. Rosinskii. 19, 70 (1965) [19, 135 (1965)] (3)

On the Line Width in Stimulated Raman Scattering—I. A. Marushko and V. S. Mashkevich. 19, 71 (1965) [19, 138 (1965)] (3)

On the Possibility of Determining the Coherence Function by Observing Diffraction—B. A. Sotskii. 19, 73 (1965) [19, 138 (1965)] (2)

Concerning the Rotation of the Positive Column of the Discharge in a Magnetic Field—V. M. Zakharova and Yu. M. Kagan. 19, 74 (1965) [19, 140 (1965)] (3)

Electro-Optic Effect in ZnSe Crystals—I. I. Adrianova, G. V. Dreiden, K. K. Dubenskii, Yu. V. Popov, and V. A. Sokolov. 19, 75 (1965) [19, 142 (1965)] (6)

A New Study of the Emission Spectrum of the SrCl Molecule —M. M. Novikov and L. V. Gurvich. 19, 76 (1965) [19, 143 (1965)] (3)

Spectra of Multiply Ionized Krypton Atoms—E. Ya. Kononov and S. L. Mandelshtam. 19, 78 (1965) [19, 145 (1965)] (3)

Polarization of the 5770-Å Mercury Line Arising from Electron Impact—V. L. Fyodorov. 19, 79 (1965) [19, 147 (1965)] (2)

High-Frequency Electroluminescence of Semiconducting Crystals—Ya. A. Oksman and V. N. Smirnov. 19, 80 (1965) [19, 149 (1965)] (3)

Photographic Method of Recording in Fourier Spectrometry —I. P. Petrov and B. N. Grechushnikov. 19, 82 (1965) [19, 151 (1965)] (3)

Absolute Intensities of Thallium Spectral Lines in Sensitized Fluorescence of Mercury and Thallium Vapors—E. K. Kraulinya, A. E. Lezdin, and Yu. A. Silin. 19, 84 (1965) [19, 154 (1965)] (4)

Some Properties of Lasers from the Point of View of Thermodynamics—Yu. T. Mazurenko. 19, 85 (1965) [19, 156 (1965)] (2)

No. 2—August

Nonadiabatic Transitions between the Fine-Structure Components of Alkali Metal Atoms during Atomic Collisions—E. E. Nikitin. 19, 91 (1965) [19, 161 (1965)] (2)

Effects of the Collective Properties of a System of Identical Atoms on the Scattering of Radiation—G. S. Kruglik. 19, 96 (1965) [19, 171 (1965)] (2)

Broadening of Emission Lines of Thallium by Molecular Hydrogen—V. A. Dudkin, T. L. Andreeva, V. I. Malyshev, and V. N. Sorokin. 19, 99 (1965) [19, 177 (1965)]

Study of Absorption in the Channel of High-Pressure Pulse Discharge—F. A. Charnaya and Z. G. Yakob. 19, 101 (1965) [19, 181 (1965)]

On the Use of Effective Kinematic Coefficients to Take Account of Anharmonicity in Molecular Vibrations—A. Ya. Tsaune and V. P. Morozov. 19, 104 (1965) [19, 186 (1965)]

Calculation of the Frequencies and Forms of the Vibrations of Two Isotopic Forms of the 1,3-Butadiene Molecule, C_4H_6 and C_4D_6—G. S. Koptev, Yu. N. Panchenko, V. I. Tyulin, and V. M. Tatevskii. 19, 108 (1965) [19, 194 (1965)]

On the Relationship between Certain Spectral Characteristics and the Reactivity of Aromatic Compounds. I. Para- and Meta-Nitro Disubstitution Products of Benzene—Ya. S. Bobovich and N. M. Belyaevskaya. 19, 111 (1965) [19, 198 (1965)]

Principal Parameters of the Raman Lines of the Monohalogenobenzenes and Their Variation with Temperature and Solvent—N. K. Sidorov, L. I. Bratanova, and L. S. Stalmakhova. 19, 116 (1965) [19, 206 (1965)]

Investigation of the Dependence of Infrared Absorption Band Parameters on Viscosity—T. L. Andreyeva and V. I. Malyshev. 19, 120 (1965) [19, 213 (1965)]

Three-Membered Ring Compounds. I. The Proton Magnetic Resonance Spectra and the Inversion of Nitrogen in N-Substituted Ethyleneimines—V. F. Bystrov, R. G. Kostyanovskii, O. A. Panshin, A. U. Stepanyants, and O. A. Iuzhakova. 19, 122 (1965) [19, 217 (1965)]

The Inversion of Ammonia Molecules in Solution—N. I. Bagdanskis and M. O. Bulanin. 19, 128 (1965) [19, 229 (1965)]

The Oscillator Strength of the First Electronic Transition of Crystalline Anthracene—M. S. Brodin and S. V. Marisova. 19, 132 (1965) [19, 235 (1965)]

Polarization of the Fluorescence of Metalloporphyrins—G. P. Gurinovich, A. I. Patsko, K. N. Solovev, and S. F. Shkirman. 19, 134 (1965) [19, 239 (1965)]

Some Trapping Centers in NaI(Tl) Crystals—Z. B. Baturicheva, N. Yu. Gurevich, and Yu. A. Tsirlin. 19, 136 (1965) [19, 242 (1965)]

Optical Properties of Polycrystalline InSb Films—S. A. Semiletov, P. S. Agalarzade, and E. M. Kortukova. 19, 142 (1965) [19, 252 (1965)]

The Effect of Oxygen on the Spectrum of Electron Traps in Luminescent Zinc Sulfide—A. A. Bundel and G. V. Zhukov. 19, 139 (1965) [19, 247 (1965)]

Structure of the Radiation Field of a Gas Laser with Spherical Mirrors—S. G. Zeiger, N. I. Kaliteevskii, E. E. Fradkin, and M. P. Chaika. 19, 144 (1965) [19, 255 (1965)]

On the Threshold Power of a Laser with Disturbed Optical Adjustment—I. A. Rom-Krichevskaya, A. M. Ratner, and A. V. Meshcheryakov. 19, 149 (1965) [19, 264 (1965)]

The Use of Moiré Interference Fringes to Control the Ruling of Diffraction Gratings—F. M. Gerasimov, V. P. Sergeev, I. A. Teltevskii, V. V. Sergeev, and B. V. Marichev. 19, 152 (1965) [19, 270 (1965)]

On the Existence of a Correlation between the Reactivity of Aromatic Nitro Compounds and Their Interaction with a Solvent—Ya. S. Bobovich. 19, 157 (1965) [19, 279 (1965)] (2)

Low-Voltage Electroluminescence of Evaporated ZnS-Cu, Mn, Cl Films in a dc Field—E. D. Golovkina, V. V. Pasynkov, and G. N. Khanina. 19, 158 (1965) [19, 281 (1965)] (4)

A Simple Technique for Determining the Temperature and Electron Concentration of a One-Component Plasma—V. M. Goldfarb. 19, 160 (1965) [19, 284 (1965)] (2)

Effect of Mirror Misalignment on the Losses in a Fabry-Perot Resonator—M. P. Vanyukov, V. I. Isaenko, V. P. Kalinin, and V. V. Lyubimov. 19, 161 (1965) [19, 286 (1965)] (5)

Electro-Optical Parameters of the ≡C-Ge, ≡C-H, ≡C-Si Bonds of Some Acetylene Derivatives Containing One and Several Acetylene Groups—E. A. Gastilovich, D. N. Shigorin, N. V. Komarov, and O. G. Yarosh. 19, 162 (1965) [19, 287 (1965)] (5)

On the Theory of the Radiative Width of Spectral Lines—V. A. Morozov and P. P. Shorygin. 19, 164 (1965) [19, 289 (1965)] (3)

Wide-Angle Interference of Light—I. N. Shklyarevskii and V. I. Goloyadova. 19, 165 (1965) [19, 292 (1965)] (3)

Growth of Absorption Bands in CaF_2 Crystals under Proton Irradiation—L. A. Lisitsyna. 19, 167 (1965) [19, 295 (1965)] (2)

Luminescence and Absorption of Excited Ruby—M. D. Galanin, V. N. Smorchkov, and Z. A. Chizhikova. 19, 168 (1965) [19, 296 (1965)] (4)

F and M Absorption Bands in Solid Solutions of the KCl-KBr System—T. S. Frangulyan. 19, 170 (1965) [19, 299 (1965)] (2)

Calculation of the Optical Polarizability of the Hydrogen Atom with the Use of a Power Series—M. N. Adamov, V. K. Kagan, and B. I. Orlov. 19, 171 (1965) [19, 300 (1965)] (4)

The Electroluminescence of Single Crystals of GaSe—G. A. Akhundov and I. G. Aksyanov. 19, 172 (1965) [19, 302 (1965)] (3)

Determination of the Hyperfine Structure Constants of Cesium from the Intersection of Magnetic Sublevels—Kh. Kallas, G. Markova, G. Khvostenko, and M. Chaika. 19, 173 (1965) [19, 303 (1965)] (5)

On the Calculation of the Thermal Radiation of the Atmosphere—B. M. Golubitskii. 19, 175 (1965) [19, 306 (1965)] (2)

Production of a Powerful Pulse of Radiation from a Ruby Laser Using an Ultrasonic Traveling-Wave Diffraction Modulator—I. I. Adrianova, Yu. V. Popov, and V. E. Terentev. 19, 176 (1965) [19, 307 (1965)] (4)

An Infrared Ultrafast Spectrometer—O. D. Dmitrievskii and I. P. Kotlyar. 19, 177 (1965) [19, 310 (1965)] (3)

B. P. Kozyrev, on His 70th Birthday. 19, 178 (1965) [19, 312 (1965)] (2)

No. 3—September

Perturbation Theory in the Hartree-Fok Method—T. K. Rebane. 19, 179 (1965) [19, 313 (1965)] (2)

Excitation of Neon Atoms by Electron Impact—V. Ya. Veldre, A. V. Lyash, and L. L. Rabik. 19, 182 (1965) [19, 319 (1965)] (4)

Radiation Transfer in an Ionization Continuum—L. M. Biberman, V. S. Vorobyev, and A. N. Lagarkov. 19, 186 (1965) [19, 326 (1965)] (4)

New Method of Obtaining the Kinematic and Complete Interaction Coefficients of Isotopically Substituted Molecules Belonging to Low-Symmetry Groups—V. N. Kapshtal. 19, 189 (1965) [19, 331 (1965)]

Absorption and Emission Band Contours of Complex Molecules—V. P. Klochkov. 19, 192 (1965) [19, 337 (1965)]

Universal Intermolecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. VIII. Some Remarks on the Application of the Method of Universal Interaction Functions—N. G. Bakhshiev. 19, 196 (1965) [19, 345 (1965)]

Estimation of the Electrooptical Parameters of Some Acetylene Derivatives by the Infrared Spectra Method—E. A. Gastilovich, D. N. Shigorin, and N. V. Komarov. 19, 201 (1965) [19, 354 (1965)]

Temperature Dependence of the Quantum Yields of Luminescence in Pure and Impurity-Admixed Crystals of Anthracene and Naphthalene—V. L. Zima and A. N. Faidysh. 19, 203 (1965) [19, 359 (1965)]

Group-Theoretical Analysis of the Zeeman Effect in the Optical Spectra of Cubic Crystals—B. P. Zakharchenya and I. B. Rusanov. 19, 207 (1965) [19, 365 (1965)]

Spectroscopy of Some Activated Alkali-Halide Crystals Based on Kinetic Investigations of Intracenter Luminescence—M. F. Trinkler, I. K. Plyavin, B. Ya. Berzin, and A. K. Everte. 19, 213 (1965) [19, 378 (1965)]

Range of Validity of the Transport Equations—A. P. Khapalyuk. 19, 218 (1965) [19, 387 (1965)]

Light Scattering in the Vicinity of the Critical Liquid-Vapor Point. I. Apparatus. Experiments with Carbon Dioxide and Sulfur Hexafluoride—V. P. Skripov and Yu. D. Kolpakov. 19, 220 (1965) [19, 392 (1965)]

Total Internal Reflection Filter. IV—L. V. Iogansen. 19, 225 (1965) [19, 403 (1965)]

Effect of Self-Shadowing on the Coefficient of Reflection from the Cleaved Surface of a Monocrystal—I. S. Zhitomirskii, T. S. Chebanova, and M. I. Shakhnovich. 19, 229 (1965) [19, 409 (1965)]

Calculation of Distribution of Intensities by a Diffraction Grating in Polarized Light—E. A. Yakovlev. 19, 233 (1965) [19, 417 (1965)]

Reflection of X Rays with Wavelengths from 23.6 to 190.3 Å. Some Remarks on the Performance of Diffraction Gratings—A. P. Lukirskii, E. P. Savinov, O. A. Ershov, I. I. Zhukova, and V. A. Fomichev. 19, 237 (1965) [19, 425 (1965)]

Study of the Quantum Yield of Anti-Stokes Fluorescence—J. Hevesi and L. Kozma. 19, 241 (1965) [19, 434 (1965)]

The Consecutive Filling Rule for (n + l) Groups and the Multiplicity of the Ground Term of Atoms—V. M. Klechkovskii. 19, 245 (1965) [19, 441 (1965)]

Indirect Transitions in the CdS Crystal—M. S. Brodin, N. I. Vitrikhovskii, and M. V. Kurik. 19, 247 (1965) [19, 444 (1965)]

The Dependence of the Spectral Composition of Radioluminescence on the Intensity of the Exciting Radiation—Z. P. Chornii and A. B. Lyskovich. 19, 248 (1965) [19, 446 (1965)]

Test of a Hypothesis Concerning Anomalous Trichromatic Color Vision—N. V. Lobanova. 19, 250 (1965) [19, 448 (1965)]

Beats in Luminescence due to Phase Modulation of the Excited State—E. B. Aleksandrov. 19, 252 (1965) [19, 452 (1965)]

Modulation and Filtration of Resonance Radiation with the Use of the Faraday Effect—E. B. Aleksandrov. 19, 254 (1965) [19, 455 (1965)] (2)

On the Mechanism of Inter-Cation d-d Interaction in Glasses and Polycrystalline Materials—Yu. N. Kondratyev. 19, 255 (1965) [19, 458 (1965)] (2)

Vibrational Frequencies of Coordinated Hydroxylamine—Yu. Ya. Kharitonov, M. A. Sarakhanov, I. B. Baranovskii, and Kh. U. Ikramov. 19, 257 (1965) [19, 460 (1965)] (5)

On the Treatment of Exchange in the Problems of the Theory of Electron-Atom Collisions—V. I. Ochkur. 19, 258 (1965) [19, 461 (1965)] (2)

Luminescence of the NaCl-Pb Phosphor in the Neighborhood of 385 nm—A. P. Zhukovskii. 19, 259 (1965) [19, 463 (1965)] (2)

On the Generation of Sharply Directed Coherent Radiation—E. M. Belenov and V. S. Letokhov. 19, 261 (1965) [19, 465 (1965)] (3)

A New Journal on Quantum Electronics—P. P. Feofilov. 19, 262 (1965) [19, 468 (1965)] (2)

No. 4—October

Radiation of a Charge Moving Above a Diffraction Grating—B. M. Bolotovskii and A. K. Burtsev. 19, 263 (1965) [19, 469 (1965)] (3)

The Calculation of Born Excitation Cross Sections of Excited Hydrogen Atoms—V. Ya. Veldre and L. L. Rabik. 19, 265 (1965) [19, 474 (1965)] (3)

The Effective Excitation Cross Sections of Alkali-Metal Atoms Colliding with Slow Electrons. I. Sodium—I. P. Zapesochnyi and L. L. Shimon. 19, 268 (1965) [19, 480 (1965)] (3)

The Relationship Between the Probabilities of Second-Order Radiation Processes in Perturbation Theory—L. M. Biberman, A. Kh. Mnatsakanyan, and A. N. Starostin. 19, 272 (1965) [19, 487 (1965)] (4)

Exchange Excitation of Helium by Electron Impact—V. I. Ochkur and V. F. Brattsev. 19, 274 (1965) [19, 490 (1965)] (4)

Energy Emitted by Argon Plasma in Spectral Lines—I. T. Yakubov. 19, 277 (1965) [19, 497 (1965)] (3)

Stark Effect for the Rotational Levels of Molecules in Strong Fields—A. V. Gaponov, Yu. N. Demkov, N. G. Protopopova, and V. M. Fain. 19, 279 (1965) [19, 501 (1965)] (2)

Determination of the Absolute Values of Oscillator Strengths by Combined Measurement of the Total and Linear Absorption of Vapor Layers in a Graphite Cell—B. V. Lvov. 19, 282 (1965) [19, 507 (1965)] (5)

The Excitation and Characteristics of the Thorium Spectrum in Electrodeless Discharge Tubes—V. N. Egorov and O. V. Runkov. 19, 284 (1965) [19, 511 (1965)] (2)

Radiative Gas Cooling Behind Shock Waves—V. G. Sevastyanenko and I. T. Yakubov. 19, 286 (1965) [19, 515 (1965)] (3)

Construction of Potential Curves for Diatomic Molecules of Copper, Silver, and Gold—M. D. Dolgushin. 19, 289 (1965) [19, 519 (1965)] (2)

New Bands in the Swan System of the C_2 Molecule—E. D. Bugrim, A. I. Lyutyi, V. S. Rossikhin, and I. L. Tsikora. 19, 292 (1965) [19, 524 (1965)] (5)

Concerning the Vibrational Constants and Dissociation Energy of the CCl Molecule—I. E. Ovcharenko, Yu. Ya. Kuzyakov, and V. M. Tatevskii. 19, 294 (1965) [19, 528 (1965)]

Quasi-Line Fluorescence and Absorption Spectra of Perilene at 20° and 4° K—M. M. Valdman and R. I. Personov. 19, 296 (1965) [19, 531 (1965)]

Universal Intermolecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. IX—N. G. Bakhshiev. 19, 299 (1965) [19, 535 (1965)]

Quantitative Study of the Absorption and Dispersion of $CHCl_3$ and CCl_4 Solutions in the Region of Strong Infrared Absorption Bands—V. S. Libov and Yu. E. Zabiyakin. 19, 303 (1965) [19, 544 (1965)]

Hydrogen Bond Energies and Shifts of the Stretching Vibration Bands of C=O Groups—B. A. Zadorozhnyi and I. K. Ishchenko. 19, 306 (1965) [19, 551 (1965)]

On the Intensity of Vibrational Raman Lines of Molecules—F. A. Savin. 19, 308 (1965) [19, 555 (1965)]

On the Theory of the Intensities of Raman Lines. VI. On the Agreement of the Results of the Quantum and Classical Theories—L. L. Krushinskii and P. P. Shorygin. 19, 312 (1965) [19, 562 (1965)]

Study of the Raman Spectra of Water, Saturated Aqueous Solutions of Electrolytes, and Ice—Z. A. Gabrichidze. 19, 319 (1965) [19, 575 (1965)]

Investigations of the Infrared Absorption Spectra of Antiferromagnetic Crystals with Hydrogen Bonds—A. I. Stekhanov, E. A. Popova, and Yu. F. Markov. 19, 323 (1965) [19, 583 (1965)]

On the Determination of the Energy Spectrum of an Impurity Ion with an Unfilled d Shell in a Crystal—A. N. Men, A. V. Sokolov, N. A. Zvezdina, Yu. N. Kurushin, B. M. Nekoshnov, and V. S. Chudakov. 19, 325 (1965) [19, 586 (1965)]

Deformation Splitting and Enhancement of Spectral Lines and the Structure of Excited Levels of Eu^{2+} in Alkali-Earth Fluoride Crystals—A. A. Kaplyanskii and A. K. Przhevuskii. 19, 331 (1965) [19, 597 (1965)]

On the Effect of Admixtures of Vanadium Pentoxide on the Luminescence of Zinc Oxide—S. L. Berdnikov and Ya. M. Zelikin. 19, 339 (1965) [19, 611 (1965)]

Light Scattering in the Vicinity of the Critical Liquid-Vapor Point. II. Breakdown of the Rayleigh Scattering Law—Yu. D. Kolpakov and V. P. Skripov. 19, 342 (1965) [19, 616 (1965)]

On the Choice of the Optimum Conditions for the Production of Spectra by the Frustrated Total Internal Reflection Method—V. M. Zolotarev and L. D. Kislovskii. 19, 346 (1965) [19, 623 (1965)]

Information Retrieval System for Molecular Spectroscopy Using Slotted Cards—Z. B. Barinova and V. T. Aleksanyan. 19, 349 (1965) [19, 628 (1965)]

Determination of the Effective Cross Section for Second-Order Collisions of Mercury and Zinc Atoms—M. L. Sosinskii and E. N. Morosov. 19, 352 (1965) [19, 634 (1965)]

Luminescence and Absorption Associated with the Lower Terms of Co^{2+} and Ni^{2+} Ions in Single Crystals of ZnS—K. K. Dubenskii, Ya. E. Kariss, A. I. Ryskin, P. P. Feofilov, and G. I. Khilko. 19, 353 (1965) [19, 635 (1965)]

Nonanalytical Character of the Coulomb Exciton Energy and Peculiarities of Resonance Raman Scattering—L. N. Ovander. 19, 355 (1965) [19, 638 (1965)] (2)

On a Method for Eliminating Slit Distortions in a Spectral Instrument—B. M. Golubitskii. 19, 356 (1965) [19, 640 (1965)] (2)

The Wavelength Dependence of the Duration of Luminescence within the Limits of the Luminescence Line Contour at a High Excitation Level—A. M. Bonch-Bruevich and T. K. Razumova. 19, 358 (1965) [19, 643 (1965)] (3)

Determination of the Correlation Distance Near the Critical Point by the Scattering of Light—V. P. Skripov and Yu. D. Kolpakov. 19, 360 (1965) [19, 645 (1965)] (3)

On the D_{JK} Value for the Cyclopentene Molecule C_5H_8—S. I. Subbotin, V. I. Tyulin, D. I. Katayev, and V. M. Tatevskii. 19, 361 (1965) [19, 647 (1965)] (5)

Study of the Optical Properties of Molecular Hydrogen Using the Variation Method of Perturbation Theory—M. N. Adamov and R. A. Evarestov. 19, 362 (1965) [19, 648 (1965)] (3)

Calculation of Electrooptical Parameters and Absolute Intensities of the Infrared Bands of Cyclopropane and Deuterocyclopropane—N. I. Prokofeva and [illegible]. M. Sverdlov. 19, 363 (1965) [19, 650 (1965)] (3)

Measurement of Relative Oscillator Strengths in the Copper Atom Spectrum by the Linear Absorption Method—P. P. Ostroumenko and V. S. Rossikhin. 19, 365 (1965) [19, 653 (1965)] (3)

Andrei Petrovich Lukirskii (1928-1965). 19, 367 (1965) [19, 656 (1965)] (2)

No. 5—November

On the Application of the Coulomb Approximation to the Calculation of Transition Probabilities—G. E. Norman. 19, 369 (1965) [19, 657 (1965)] (2)

Measurement of Hyperfine Structure Using Resonance Scattering of Modulated Light—M. I. Dyakonov. 19, 372 (1965) [19, 662 (1965)] (2)

Optical Orientation of Hg^{201} Atoms Using the 1850 Å Line—L. N. Novikov and Ion M. Popesku. 19, 375 (1965) [19, 668 (1965)] (3)

Bremsstrahlung in the Infrared Region from the Plasma of the Electrodeless Induction Discharge—L. A. Dushin, V. I. Kononenko, O. S. Pavlichenko, and I. K. Nikolskii. 19, 378 (1965) [19, 674 (1965)] (5)

Measurement of the Probability of Spontaneous Radiation from Nitrous Oxide Molecules in the Region 2.9 μ and 3.9 μ—I. N. Orlova. 19, 381 (1965) [19, 680 (1965)] (2)

Determination of the Relative Optical Collision Diameters of Nitrous Oxide Molecules by the Optico-acoustic Method—Ya. I. Gerlovin. 19, 384 (1965) [19, 685 (1965)] (2)

Characteristic Times for Fluorescence of Rarified Vapors of Complex Molecules—V. A. Tolkachev. 19, 387 (1965) [19, 692 (1965)] (2)

Universal Molecular Interactions and Their Effect on the Position of the Electronic Spectra of Molecules in Two-Component Solutions. X. An Investigation of the Absorption and Fluorescence Spectra of Phthalimide Derivatives over a Wide Range of Temperatures (20-300° C)—N. G. Bakhshiev and I. V. Piterskaya. 19, 390 (1965) [19, 698 (1965)] (3)

Infrared Spectra and Intermolecular Interaction in Hydrogen Halide Solutions. Weak Interactions—D. N. Shchepkin. 19, 395 (1965) [19, 709 (1965)] (5)

Experimental and Theoretical Study of Infrared Absorption Band Intensities in the Spectra of Some Organogermanium Compounds—S. V. Markova and G. Ya. Zueva. 19, 399 (1965) [19, 716 (1965)] (5)

On a Possible Cause of the Shift and Broadening of the Vibrational Lines of Polar Organic Compounds without Hydrogen Bonds—A. V. Sechkaryov. 19, 401 (1965) [19, 721 (1965)] (4)

Infrared Absorption Band Shapes and the Rotational Motion of Molecules in Liquids. Hydrogen Halide Solutions—M. O. Bulanin, N. D. Orlova, and D. N. Shchepkin. 19, 406 (1965) [19, 731 (1965)] (4)

Effect of Molecular Interactions on the Profiles of the Raman Lines of Dioxane in Solutions—N. I. Rezaev and K. Shchepanyak. 19, 409 (1965) [19, 738 (1965)] (2)

Intensities in Raman Spectra and the Metal Model of the Molecule. IV. Raman Scattering near the Absorption Band of Certain Aromatic Molecules—F. A. Savin. 19, 412 (1965) [19, 743 (1965)] (3)

Luminescence Spectra and the Structure of Hydrated Uranyl Nitrates—L. V. Volodko. 19, 416 (1965) [19, 751 (1965)] (3)

The Fluorescence of Rare Earths. III. Emission Spectra of Samarium in Fluorite-Type Phases and in Multi-Type Mixed Phases—H. K. Muller-Buschbaum and H. Witzmann. 19, 420 (1965) [19, 759 (1965)] (2)

Interpretation of the Fine Structure of the Spectra of Eu Coordination Compounds of the MX_3 Type. I. Theory. Spectrum of Eu Benzoylacetonate—V. S. Korolkov and V. V. Kuznetsova. 19, 423 (1965) [19, 764 (1965)] (3)

On the Temperature Dependence of the Width and Shape of EPR Absorption Curves of Local Centers in Crystals with Hyperfine Interaction—L. A. Shulman. 19, 427 (1965) [19, 771 (1965)] (3)

Growth of the Initial Intensity of X-Ray Luminescence in Alkali-Halide Phosphors under Repeated Excitations—L. M. Shamovskii and A. A. Dunina. 19, 429 (1965) [19, 776 (1965)] (3)

Optical Properties of CaF_2 in the Wavelength Range 170-600 μ—L. V. Berman and A. G. Zhukov. 19, 433 (1965) [19, 783 (1965)] (4)

On the Relationship between the Radiation Coherence and the Number of Modes of a Laser—B. A. Sotskii and A. M. Goncharenko. 19, 435 (1965) [19, 788 (1965)] (3)

Multiple-Beam Interference in a Wedge—V. K. Miloslavskii and A. N. Ryazanov. 19, 437 (1965) [19, 792 (1965)] (4)

Bremsstrahlung of a Tungsten Anode in the 25-250 Å Region—A. P. Lukirskii and V. A. Fomichev. 19, 441 (1965) [19, 800 (1965)] (3)

On the Possibilities of Studying Band Contours in Frustrated Total Internal Reflection Spectrophotometry—V. M. Zolotarev and L. D. Kislovskii. 19, 446 (1965) [19, 809 (1965)] (3)

On the Removal of Degeneracy of the Levels of Cubic Activator Centers in Mixed Crystals of the Fluorite Type—M. N. Tolstoi and P. P. Feofilov. 19, 448 (1965) [19, 812 (1965)] (2)

Spectroscopic Determination of the Indices of Refraction of Polycrystalline Specimens—S. S. Batsanov and Z. A. Grankina. 19, 449 (1965) [19, 814 (1965)] (2)

On the Luminescence of Neodymium and Chromium in Yttrium Aluminum Garnet—P. P. Feofilov, V. A. Timofeeva, M. N. Tolstoi, and L. M. Belyaev. 19, 451 (1965) [19, 817 (1965)] (5)

Thermal Excitation of the Spectrum of Molecular Nitrogen—E. B. Brusyanova, V. N. Kolesnikov, and N. N. Sobolev. 19, 453 (1965) [19, 819 (1965)] (4)

A Study of Photochromic Transformations in Spiropyrane Solutions Using the Luminescence Method—G. I. Lashkov and A. V. Shablya. 19, 455 (1965) [19, 821 (1965)] (3)

Method of Processing Hook Interferograms—A. M. Shukhtin. 19, 457 (1965) [19, 824 (1965)] (2)

Electrooptic Effect in a Rotating Electric Field and the Rigid Electric Dipole Moment of Colloidal Particles—N. A. Tolstoi, A. A. Spartakov, and A. A. Trusov. 19, 458 (1965) [19, 826 (1965)] (4)

Phototransfer of an Electron from Aromatic Amines to Solvents under Pulse Excitation—O. D. Dmitrievskii. 19, 460 (1965) [19, 828 (1965)] (2)

Nonlinear Quenching of Luminescence of Manganous Chloride Due to Increased Intensity of Excitation—N. A. Tolstoi and A. P. Abramov. 19, 461 (1965) [19, 830 (1965)] (3)

The Scintillation Excitation Mechanism in Thallium-Activated Sodium Iodide—Ya. M. Zakharko and V. V. Chepelev. 19, 462 (1965) [19, 831 (1965)] (3)

Generation of Radiation in He-Cd and Ne-Cd Mixtures—A. S. Tibiloz. 19, 463 (1965) [19, 833 (1965)] (2)

On the Choice of the Moving Coordinate System in the Theory of the Rotational-Vibrational Spectra of Polyatomic Molecules—A. A. Kiselev and I. V. Abarenkov. 19, 464 (1965) [19, 834 (1965)] (3)

No. 6—December

Isotope Shift and Deformations of Ytterbium Nuclei—A. F. Golovin and A. R. Striganov. 19, 467 (1965) [19, 837 (1965)] (3)

Calculation of Cross Sections for the Excitation of the Energy Levels of Inert Gases by Electrons—R. F. Boikova and E. E. Fradkin. 19, 470 (1965) [19, 843 (1965)] (3)

Resonance Phenomena in the Elastic Scattering of Electrons by Helium Atoms—T. V. Zhikhareva. 19, 474 (1965) [19, 851 (1965)] (2)

The Calculation of Cross Sections for the Excitation of Molecular Levels by Collision with Fast Electrons, and the Additivity Rule for Atomic Stopping Powers—I. G. Kaplan and A. P. Markin. 19, 476 (1965) [19, 856 (1965)] (3)

Effective Excitation Cross Sections of Alkali Metal Atoms Colliding with Slow Electrons. II. Potassium—I. P. Zapesochnyi, L. L. Shimon, and A. K. Soshnikov. 19, 480 (1965) [19, 864 (1965)] (4)

Quasiclasssical Wave Functions of the Morse Oscillator and Their Application to the Calculation of Franck-Condon Factors. III. Approximate Calculation of Franck-Condon Factors on an Electronic Computer—N. I. Zhirnov and L. A. Kronrod. 19, 484 (1965) [19, 871 (1965)] (3)

Application of the Lagrange Equations with Nonvanishing Couplings for Setting Up the Theory of Molecular Vibrations in Dependent Coordinates—I. N. Godnev, A. A. Zaitsev, and I. V. Rigina. 19, 486 (1965) [19, 874 (1965)] (4)

Effect of Intermolecular Interactions on the Absorption of Light by a System of Harmonic Oscillators—Yu. T. Mazurenko. 19, 490 (1965) [19, 881 (1965)] (2)

Spectroscopic Evidence of Intra- and Intermolecular Interactions of Nitro Groups—Ya. S. Bobovich. 19, 493 (1965) [19, 886 (1965)]

Width and Shape of Depolarized Raman Lines and the Wing of the Rayleigh Line in Liquids—G. I. Zaitsev and V. S. Starunov. 19, 497 (1965) [19, 893 (1965)]

Theory of the Shape and Width of Depolarized Lines in the Raman Spectra of Molecular Crystals—E. E. Ivanov and K. A. Valiev. 19, 499 (1965) [19, 897 (1965)]

Comparative Study of the Vibrational Spectra of Some Aromatic Acids in the Gaseous and Condensed States—A. V. Sechkarev and A. K. Petrov. 19, 503 (1965) [19, 904 (1965)]

The Raman Spectrum of Crystalline Lithium Monohydrosulfate—Z. A. Gabrichidze. 19, 507 (1965) [19, 913 (1965)]

Absorption of Light by α Oxygen in the Range 34,000-41,000 cm^{-1} at 4°K—A. F. Prikhotko and O. S. Pakhomova. 19, 509 (1965) [19, 916 (1965)]

Measurement of the Moisture of Gas Mixtures by Infrared Absorption Spectra. II. Determination of the Vertical Distribution of Water Vapor in the Atmosphere from High-Altitude Measurements of the Solar Spectrum—M. S. Kiseleva and B. S. Neporent. 19, 513 (1965) [19, 923 (1965)]

Triplet-Triplet Absorption Spectra of Some Tetrapyrrole Pigments in Liquid Solution—P. A. Shakhverdov. 19, 519 (1965) [19, 933 (1965)]

Duration of Afterglow in Aqueous Solutions of Gadolinium Salts—D. N. Terpilovskii. 19, 520 (1965) [19, 936 (1965)]

Narrow Line Spectra of ZnS Single Crystals with Packing Faults—K. V. Shalimova and N. K. Morozova. 19, 522 (1965) [19, 939 (1965)]

Three Types of Gudden-Pohl Effect and the Phosphorescence of Copper-Activated Zinc Sulfide—A. G. Goldman, A. I. Proskura, and S. F. Lysenko. 19, 524 (1965) [19, 943 (1965)]

Chromium Sensitization of the Neodymium Luminescence in Glass—G. O. Karapetyan, V. P. Kovalyov, and S. G. Lunter. 19, 529 (1965) [19, 951 (1965)]

Theory of Rayleigh Scattering of Light in Liquids—R. M. Yulmetev. 19, 532 (1965) [19, 956 (1965)]

On the Accuracy of Determination of the Absorption Coefficient of Semiconductors—N. V. Kurik. 19, 536 (1965) [19, 964 (1965)]

Determination of the Lifetime of the Excited $7^2P_{3/2}$ State of Cesium from Double Resonance Experiments—E. L. Altman and M. P. Chaika. 19, 538 (1965) [19, 968 (1965)] (3)

Luminescence of Chromium and Manganese Ions in Lanthanum Aluminate Crystals—Z. N. Zonn, V. A. Ioffe, and P. P. Feofilov. 19, 541 (1965) [19, 973 (1965)] (4)

Rotational Satellites of 1,2-Chlorofluoroethane—I. A. Mukhtarov. 19, 543 (1965) [19, 976 (1965)] (2)

Determination of Supplementary Conditions among Deformational Coordinates—V. N. Kapshtal. 19, 544 (1965) [19, 977 (1965)] (2)

Correlation of Directions in the Case of Cascade Transitions in Characteristic X-Ray Emission—F. A. Babushkin. 19, 545 (1965) [19, 978 (1965)] (2)

Centrifugal Perturbation Constants of the 1,1,2-Trifluoroethane Molecule—I. A. Mukhtarov and R. I. Mukhtarov. 19, 546 (1965) [19, 979 (1965)] (3)

Determination of Certain Parameters of β-Particle Tracks in $CaSO_4$-Mn—B. M. Nosenko, L. S. Revzin, and V. Ya. Yaskolko. 19, 547 (1965) [19, 980 (1965)] (4)

Stimulated Raman Scattering in Selective Resonators—E. B. Aleksandrov, A. M. Bonch-Bruevich, N. N. Kostin, and V. A. Khodovoi. 19, 548 (1965) [19, 982 (1965)] (5)

On the Effect of Light Gases on the Absorption of Light by the Vapors of Aromatic Compounds—Yu. T. Mazurenko and B. S. Neporent. 19, 550 (1965) [19, 985 (1965)] (3)

g Factors of the Excited Levels of the Potassium Ion—R. I. Semenov. 19, 552 (1965) [19, 986 (1965)] (2)

High-Frequency Electroluminescence of Polycrystalline Boron Phosphide—B. V. Baranov, Ya. A. Oksman, B. D. Prochukhan, and V. N. Smirnov. 19, 553 (1965) [19, 987 (1965)] (5)

On the Note by T. Tietz "Eigenfunctions and Eigenvalues of the Rotational-Vibrational States of Diatomic Molecules"—N. I. Zhirnov. 19, 554 (1965) [19, 990 (1965)] (5)

Fourteenth Luminescence Conference—V. L. Levshin. 19, 555 (1965) [19, 992 (1965)] (2)

Conference on the Spectral Transmittance of the Atmosphere—V. E. Zuev and S. D. Tvorogov. 19, 557 (1965) [19, 994 (1965)] (3)
